9 o'clock a. m.
Holt county Board met pursuant to adjournment; all members present. Board called to order by the chairman.

Minutes for March 27, 1930, read and approved.
RESOLUTION
Whereas, it appears from the report and request of the County Treasurer that the amount of money which he desires to deposit in the banks within the county exceeds 50 per cent of the paid capital and surplus in all of the banks in this county, and,
Whereas, the County Treasurer desires to deposit an amount in excess of 50 per cent of the capital and surplus of each of such banks but not more than the capital and surplus of any such bank,
Now, therefore, I move you that we accord said County Treasurer our consent to deposit in the designated, approved depository banks of this county or any of them, an amount of money in excess of 50 per cent of such bank's capital and surplus but in no event is the deposit in any such bank to exceed the capital and surplus of such depository bank or more than 80 per cent of the approved depository bond of such bank.
Hugh L. James,
L. E. Skidmore,
Clerk

Upon the above motion being put to motion by the chairman it was declared carried.

TRIPLE TESTED

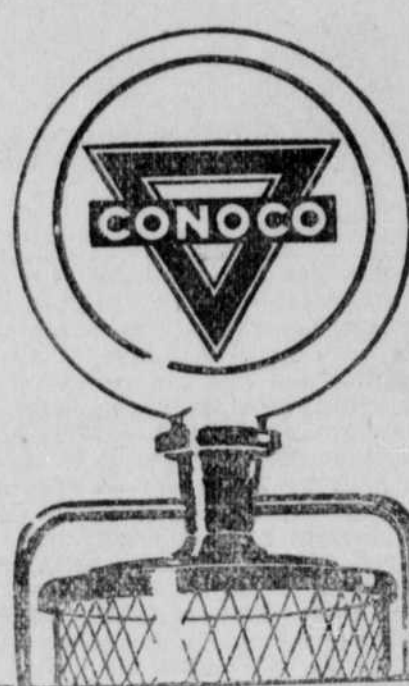

CONOCO Gasoline is actually tested dozens of times in the process of refining--but it is called Triple Tested Gasoline because of all of these tests converged into three main tests--for starting--acceleration--power!

These are the things that motorists want--and are entitled to get--from the gasoline they use. A gasoline may be ever so powerful--but if it is not volatile enough to start the motor quickly and give rapid acceleration in traffic--it will not satisfy today's demands. An easy starting, swift acceleration, are mere snares if they are not backed up with power for every need--economical power!

CONOCO Gasoline meets all three of these important practical tests--that's the reason so many people insist on Triple Tested--
