

# ACHES

There's scarcely an ache or pain that Bayer Aspirin won't relieve promptly. It can't remove the cause, but it will relieve the pain! Headaches. Backaches. Neuritis and neuralgia. Yes, and rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross:

**Forlvy Poisoning**  
Try Hanford's  
**Balsam of Myrrh**  
All dealers are authorized to refund your money for the first bottle if not suited.

**Hookworm Vanishing**  
Hookworm, which a few years ago caused many deaths in Georgia, is disappearing, according to the state board of health. Only nine deaths from the disease were reported last year.

**HEADACHE?**  
Instead of dangerous heart depressants take safe, mild, purely vegetable **NATURE'S REMEDY** and get rid of the bowel poisons that cause the trouble. Nothing like **NR** for biliousness, sick headache and constipation. Acts pleasantly. Never gripes.

**NR TO-NIGHT**  
TOMORROW ALRIGHT

**Fig Tree on Palm**  
A fig tree about three feet high was found growing out of the side of a palm tree in the courthouse grounds, Valencia, Calif. Its roots apparently drew sustenance from the mold in the niches of the palm and from the sap of the palm tree. This fig tree blossomed out with other trees at the first sign of spring.

**Ladybirds to Aid Planters**  
Breeding of ladybirds to combat the ravages of the mealy bug, the worst insect known in coffee plantations, has been started in Kenya colony, Africa. The work is the result of a suggestion by Sir Daniel Hall, chief scientific adviser to the ministry of agriculture.

**The Value**  
She—Your wife is looking wonder-ful tonight. Her gown is a poem.  
Author—As a matter of fact, that gown is two poems and a short story.—Grit (Australia).

**"I Feel Like a New Person"**  
"I took Lydia E. Pinkham's Vegetable Compound when I was tired, nervous and run-down. I saw the advertisement and decided to try it because I was hardly able to do my housework. It has helped me in every way. My nerves are better, I have a good appetite, I sleep well and I do not tire so easily. I recommend the Vegetable Compound to other women for it gives me so much strength and makes me feel like a new person."—Mrs. Lena Young, R. # 1, Ellsworth, Maine.

**Lydia E. Pinkham's Vegetable Compound**

## Out Our Way

THE LIGHT THAT FAILED.

## Milkless-Dry Grain Feed Shows Great Savings in Calf Raising and Disproves Old Theory for Growth!

New Brunswick, N. J.—(NEA)—Development of a milkless and dry grain ration at the New Jersey agricultural experiment station here after eight years of experimenting, has riddled the old theory that young dairy animals must be fed heavily on milk in order to make good growth.

The New Jersey station has already received hundreds of inquiries regarding this ration from every state in the union and from several Canadian provinces, South American countries and England.

Those seeking information have heard that the milkless ration has been formulated to enable dairymen selling whole milk to raise replacements with a minimum of labor and expense, and at the same time reduce occurrence of digestive disorders—particularly the scour—in young animals that the new ration makes possible. The attainment of these objectives has been demonstrated through feeding tests at the experiment station farm, and in results now being obtained by more than 800 New Jersey dairymen using the ration.

**Ration Produces Champ Cows**  
Records kept on more than 100 animals reared on the milkless and dry grain ration show that growth is not retarded, breeding powers are not diminished, and productive ability is not impaired. Several cows grown on the new ration have made production records.

Records further reveal that calves may be grown to six months of age at an average cost of about \$28 which is \$25 to \$50 less than the cost of rearing calves according to the whole milk method of feeding.

The formula for the new ration was developed by Prof. C. B. Bender, who is shown in right.

**I HELP CLEAN HOUSE.**  
House cleaning time, and my wife said, "This place is just a fright! You'll pitch in and help me, Sam. I'll do the job up right."

"I'll do the bedroom closets first, Sam. If you'll take things out—be careful of those dresses! My! What is the man about?!"

"Those seeds? You spilled them on the floor?"  
Of course I put them there! I must, with such a little house. Put things just anywhere.

"A place for things, and things in place."  
Oh yeah! That's good, I'll say! Just fix a place for flower seeds—Come get out of my way!

"Your tackle box? Not there, you say?"  
It's right up on that shelf; I know it's there, because last fall I put it there myself."

"I found the box and took it down. Concluding, thus, my task; housecleaning's done? I guess it is. But I forgot to ask."  
—Sam Page.

Above are several six-month-old heifers raised on milkless-dry grain ration at New Jersey Experiment Station. Professor C. B. Bender, who developed the ration, is shown on right.

associate dairy husbandman, is 150 pounds of ground oats, 100 pounds of yellow corn meal, 0 pounds each of wheat bran, linseed oil meal, and soluble blood flour, and four pounds each of finely pulverized steamed bone meal, finely pulverized limestone, and salt.

**Replaces Milk After One Month**  
The 50 pounds of soluble blood flour and 12 pounds of minerals "largely take the place of the milk," according to the belief expressed by Professor Bender. He explains that at 30 days of age calves are fed only the milkless and dry grain mixture, liberal amounts of good quality alfalfa hay, and all the water they want to drink. This ration is continued for six months, after which a change is made to a simpler growing mixture.

Calves are fed milk only during the first four weeks of their life.

opinion, is explained by better living conditions and steadier employment. He asserts, with racial pride, that the nomadic tradition has been succeeded by a blood brother of the Scotchman in industriousness and thrift.

Of peculiar interest is Mr. MacWhite's statement about the government's hydro-electric plant on the river Shannon, representing an investment of \$30,000,000. Already 98 per cent of the power supply has been contracted for. The Shannon current is driving the street cars in Dublin and Cork so economically that the companies are prospering on a lower scale of fares than were formerly charged. Meantime small communities and remote rural districts now have electricity, with higher standards of living. Government operation is apparently a success in Ireland, just as it is in Canada.

The glamorous effect of the battling island of song and story and tyranny and bloodshed is missing in Mr. MacWhite's picture. The prosaic Ireland of prosperity is, however, a much happier place for men and women to live. Mr. MacWhite says it is and he knows. But surely the troubadours have not wholly fled the emerald isle. As long as a shamrock grows there will be a poet to recite the miracle in swinging balladry. Can anyone imagine an Ireland so rich in purse as to be poor in soul!

**Airplane Progress.**  
From Time.  
Sixteen years ago Charles Coolidge Parlin, commercial researcher for Curtis Publishing company, toured the United States, studied the automobile industry. "Conservatively," accurately, he then forecast the mergers, used car crisis and from Russian customers.

Figures recently released by the department of agriculture seem to justify the holding policy that has marked the situation in both the United States and Canada. The stubborn resistance of European buyers resulted in cutting down by 246,000,000 bushels the world exports of wheat which last year were 697,000,000 bushels and this year, up till a week ago, 451,000,000. The April 1 figures showed that the United States had 241,000,000 bushels available for export for the remainder of the year, till the new crop starts coming on the market early in July.

## Texan Was Figuring on Journey Across Ocean

Battery C, One Hundred Twenty-ninth artillery, was ready to leave Camp Mills for the long trip across. We were to be taken from camp to the transport on a flat-bottom ferry boat and we were crowded on with full packs and just enough room to stand. After about an hour of the two-hour ride had passed I felt some one punching me in the back. Turning around, I saw a long, lank Texas recruit behind me.

"What do you want?" I asked him.  
"Say, how long did you say it would take us to go across?" he asked me.  
"Oh, about ten days or two weeks," I told him.

He just blinked his eyes a few times and shifted his full pack a little before saying, "Oh, boy! This is sure going to be a h—l of a t'resome trip."—L. H. Cunningham, in St. Louis Post-Dispatch.

## Have Glut of Bibles and of Epsom Salts

No more Bibles or epsom salts are wanted at Tristan da Cunha, the "world's loneliest isle," in the South Atlantic. The reason is that kindly people have sent so many of these articles that every inhabitant is supplied for years. According to Rev. R. A. C. Pooley, the missionary in charge, there has been a flood of Bibles, some houses having six copies, and many "Good Books" are awaiting new arrivals. He adds that there are still 200 pounds of epsom salts to be taken when required. His letter was written a year ago, but has just arrived in England, the boat touching the island only about once a year. A new school was erected last spring for the 150 inhabitants, who are descendants of the British garrison in the days when Napoleon was at St. Helena.

## Gems of Colored Glass

Pitkin flasks are the products of the Pitkin Glass works, which were the first works of the kind built in Connecticut. The works were constructed in 1783 and were in operation until 1830. Many containers made by the Pitkin Glass works were never surpassed in beauty or color or pattern. "The Pitkin type flask," says R. M. Knittle, "is known to every glass collector. Many large bottles are green with long banded necks. The sunburst pattern flask is particularly meritorious."

## Division of Palestine

A plan to divide Palestine according to the faith of the population—Jewish, Moslem and Christian—has been suggested. Mr. Ben Avi has proposed that 16 cantons be formed—6 Jewish, 7 Moslem and 3 Christian. The object is to place the inhabitants in congenial surroundings, giving each group freedom to govern itself in accordance with its own traditions. All would come under a central government, the mandatory power for Palestine.

## Spices and Pilgrims

About 28,000 Mohammedan pilgrims from the Netherland East Indies made the pilgrimage to Mecca during the last three months of last year. The number of visitors from the rubber districts, where prices were uncertain, was smaller than usual, while the number from the coffee and spice districts, where prices were good, was greater. The total from the two districts made up the normal pilgrimage from the islands.

## Absent-Minded

Billy was a very absent-minded little boy. One cold morning his mother sent him to school well bundled up, even to his galoshes. When he appeared at his desk his teacher was quite surprised at his appearance. She asked him: "How did you happen to come to school today without your shirt?" Billy looked himself over from his neck to his feet and exclaimed: "Gee, gosh! I thought I took off my galoshes."

## Never

"So Mabel has a job?"  
"Yeh."  
"Wrapped up in her work, I suppose?"  
"Not on your life—she's a swimming teacher."

## Early Alarm

The pioneer of daylight saving was an early morning fly in a bedroom.—Louisville Times.

## OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

In 1885, old Dr. Caldwell made a discovery for which elderly people the world over praise him today! Years of practice convinced him that many people were endangering their health by a careless choice of laxatives. So he began a search for a harmless prescription which would be thoroughly effective, yet would neither gripe nor form any habit. At last he found it.

Over and over he wrote it, when he found people bilious, headachy, out of sorts, weak or feverish; with coated tongue, bad breath, no appetite or energy. It relieved the most obstinate cases, and yet was gentle with women, children and elderly people.

Today the same famous, effective prescription, known as Dr. Caldwell's Syrup Pepsin, is the world's most popular laxative. It may be obtained from any drugstore.

## Partnership Courting

Frank—is it true you are engaged to three other men besides me?  
Frances—Why?  
"Well, I was thinking the four of us might raise enough by clubbing together to buy you an engagement ring."—Stray Stories.

## She Lost 19 Pounds of Fat in 27 Days

During October a woman in Montana wrote—"My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all you claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast. Be sure and do this every morning for "it's the little daily dose that takes off the fat."—Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from any live drugist anywhere in America with the distinct understanding that you must be satisfied with results or money back.

## Lots of Service

"How do you like my dress, Mom? Dad got it for my eighteenth birthday."  
"Certainly worn well, hasn't it?"  
—T. H. Bits.

## for Stomach and LIVER TROUBLES

Coated tongue, bad breath, constipation, biliousness, nausea, indigestion, dizziness, insomnia result from acid stomach. Avoid serious illness by taking August Flower at once. Get at any good drugist. Relieves promptly—sweetens stomach, invigorates liver, aids digestion, clears out poisons. You feel fine, eat anything with

## AUGUST FLOWER

Sioux City Ptg. Co., No. 23-1930.

## Coffins Discarded

Every now and again some worthy Berlin citizen will buy a coffin and stow it away. At an auction there the other day, fourteen coffins were put up for sale. They had been seized by the courts, according to the auctioneer, from private citizens who could not or would not pay for them.
