Ultra Before he rose as a real estate man, Frank Meline was a well-known architect and has done as much as any other man to shape the style of southern California dwellings.

"That's easy," laughed Mr. Meline. "All you are asking for is a garage, a putting green and a bedroom."

Whale's Diving Power It would be impossible for a whale to descend to the bottom of the ocean at any considerable depth of water. Although it cannot be exactly known, it has been estimated that the maximum dive of the whale is approximately 100 fathoms—that is 600 feet—and at any greater depth than this the pressure of the water would be too great for the safety of the whale.

Emerson in the Pulpit Ralph Waldo Emerson was assistant and pastor in the Second Unitarian church, in Boston, 1829-32. He arrived at the conviction that the Last Supper was not intended by Christ to be a permanent sacrament, and retired. He never had charge of another parish, but he preached an opportunity offered until 1847.

ONE PRESCRIPTION MADE FAMILY DOCTOR FAMOUS

Seldom has any single act been of greater benefit to mankind than that of Dr. Caldwell in 1885, when he wrote the prescription which has carried his fame to the four corners of the earth.

Over and over, Dr. Caldwell wrote the prescription as he found men, women and children suffering from those common symptoms of constipation, such as coated tongue, bad breath, headaches, gas, nausea, biliousness, no energy, lack of appetite, and similar things.

Demand for this prescription grew so fast, because of the pleasant, quick way it relieved such symptoms of constipation, that by 1888 Dr. Caldwell was forced to have it put up ready for use. Today, Dr. Caldwell's Syrup Pepsin, as it is called, is always ready at any drugstore.
