**O'Neill Creamery**

**Makes An Announcement**

Now that the Creamery is running in full force, we will be pleased to have all, and any people of O'Neill, neighboring towns and in fact all Cream Producers, or Consumers, to come in and visit the new plant.

We opened for business on June 30th. But just as in old times we are going to have a house warming and everyone is invited to come. There will be Ice Cream Cones, Fresh Buttermilk and Souvenirs for all who attend.

We wish to thank the people who have already sold cream to us, those in town who have remained on our Milk delivery, also those who have phoned in and brought in their orders. At this same time though we are asking you folks to do a little missionary work among your friends and neighbors. This Creamery must be a success.

The following is a list of folks who have delivered Cream to the Creamery in the short space of time that we have been operating:

If the people of this community are interested in good prices for their Cream, they should investigate and find who put the top on price of Cream. It raised from 28 cents to 31 cents when we opened.

Orders have been coming in exceptionally good the last few days for Milk, Cream, Eggs and Butter. But there are a few people in O'Neill who are interested in building up O'Neill who have neglected to phone in their Milk, Cream and Butter orders. Phone them in, we will take care of you and satisfaction is guaranteed to you.

Everyone in the county should help build up the county seat regardless of whether they live in O'Neill or the surrounding country.

SKELLY  
GASOLINE**

**AND FOR THAT REASON  
COME BACK AGAIN  
AND AGAIN**

**SKELLY**

**THAT'S** why we're glad to pay more for Skelly gasoline than we would pay for ordinary gasoline: Because we're certain many of those 300,000 (and the number is growing fast) are coming to our pumps again and again, getting more for their money. Being certain of a larger volume of sales of this higher quality gasoline, we can afford to pay more, yet sell to you at nothing extra!

Skelly Oil Company makes Refractionated Gasoline by higher cost refining, to give greater power, complete gasification, and smoother all-around performance. And that's why you and the more than 300,000 are getting more for your money.
