During the past two weeks the total number of accidents reported increased more than 100 over those reported in the previous two week period causing 100 more injuries, 7 more permanent disabilities and 10 more deaths.

This further emphasizes that the safety campaign instituted by The Nebraska Press Association and given impetus this week by the Governor's proclamation of State Safety Week must be taken up by local communities and state organizations and carried on until individual responsibility for accident prevention by observance of safety rules, common courtesy and laws is instilled into the consciousness of every man, woman and child in the state.

Every community in the state can and should organize for accident prevention. Our traffic law enforcement units should be built into a sufficiently powerful machine to brush the speed maniac, the drunkard, the stop-sign passer and other willfully reckless drivers from our highways.

In that address he expressed the hope "that the Constitution may be sacredly maintained—that its administration in every department may be stamped with wisdom and virtue—that the happiness of the people of these states may be made complete by so careful a preservation, and so prudent a use of this blessing, as will acquire to them the glory of recommending it to the affection and adoption of every nation."

James E. Stevens was arraigned in county court last Monday on complaint of Flech Nichel, alleging assault to wound and threatening to wound Dan Snyder; the young man pleaded guilty and was given a sentence of ninety days in the county jail. The young men all reside in the vicinity of Page. The trouble for which the young man was sentenced was culminated Saturday night; the boys say that Nichel and Snyder, accompanied by three other boys, who were not aggressive in the affair, followed Stevens to his home; there seems to have been an argument earlier in the evening, as well as previous occasions, between Stevens and the other young men; Saturday night things were at fever heat; upon arriving home, Stevens proceeded to arm himself with the family shotgun. When the fracas was over some of the residents of that neighborhood called deputy Sheriff Bergstrom and informed him that some fellow had shot up a car and asked him to go down and investigate, which he did, without locating any of the participants. The following morning Nichel and Snyder were in O'Neill consulting authorities in regard to the matter. Both of the young men had a bandage on their hand; the car they were driving carried evidence of an encounter with a loaded shot-gun.
