

Cold weather is motor-punishing weather... Now, more than ever, you need the extra protection of this **DE-WAXED, EASY-STARTING OIL**

In cold weather motors usually are hard to start, but Conoco Germ-Processed oil actually makes starting easier!

There are two good reasons for this.

First: Germ-Processed oil is thoroughly de-waxed and does not congeal at low temperatures. **Second:** Germ-Processed oil does not drain away during periods of motor idleness. The initial "turning over" process is made easier by the protective lubricating film which is on duty before you touch the starter. The usual 40% to 60% of motor wear occurring during the starting period is greatly reduced. Conoco Germ-Processed Motor Oil gives you

safe starting—and quick starting, even at zero temperatures. Change now to this new oil. Use it all winter for motor safety and economy. You always will find Germ-Processed Motor Oil at stations bearing the Conoco Red Triangle.

ANNOUNCEMENT

We are opening our Fair Priced Gasoline Service Station, the first door east of the K. C. Hall. We came to O'Neill because we liked your churches, schools, and your fine business outlook, believing it to be a good place to establish a home. We do not come with a quarrel against any competitive petroleum vendor. We are shooting square and hope to get our share of the business by being (in our small way) of real service to the community. We would not monopolize if we could. We believe in a live and let live policy to the tune of 18c gas. Yes, its Guerney's and we have no apology to make.
