### BAFFLING PLOT IN "REMOTE CONTROL"

"Remote Control," in which William Haines makes his latest talkie appearance at the Royal Theatre on Sunday and Monday, is regarded as the best suited vehicle in which the versatile star has been seen since "Alias Jimmy Valentine."

Like the former hit, "Remote Control" combines a mystery plot with comedy situations. However the new talkie is particularly of interest in affording Haines an hitherto unrevealed outlet for his talents as a comedian, namely, that of an impersonator of well known radio stars. This occurs in a sequence in which Haines puts on an entire radio program by himself, imitating such prominent "ether" favorites as Amos 'n Andy, Graham McNamee, Uncle Elmer and a variety of others.

A cast of well known names supports Haines in his new talkie, including Charles King, Mary Moran, who has the feminine lead; John Miljan; Polly Moran as a riotous beauty expert; J. C. Nugent, Edward Nugent, Wilbur Mack, James Donlan, Edward Brophy, Warner P. Richmond and Russell Hopton. Edward Sedgwick, whose last production was the successful Buster Keaton comedy, "Dough Boys," directed the new Haines vehicle.

School children are busy making valentines and Abraham Lincoln booklets in memory of two great men. Perhaps St. Valentine is the most beloved of the smaller children but as they grow older it is with much pride they look upon Abraham Lincoln. And thus February 12th and 14th are eventful days in the lives of school children.

A miraculous car accident happened on highway No. 20 about 3 miles west of Emmet, Friday night when a new Essex, driven by three young Atkinson boys upset in the ditch. The car was put back on the road and driven back to town; it was quite badly bent; one of the boys suffered an injury to an ear, otherwise they were only bruised and frightened. It is thought that too much speed on the turn in the road was the cause of the accident.

Agents pro and con with respect to paying World War veterans their bonus, are beginning to take definite form. One side points out that the men need the money, and that the idle savings of the country are ample to buy the bonds which would have to be issued. The other side contends that settlement at this time would defeat the original purpose of the service certificate plan by robbing it of its life insurance feature, absorb capital which just now is needed in the rehabilitation of business, and upset the bond market. It has been suggested that the individual veteran does not know what is best for the country at large. Perhaps no one knows.
