

"You can bet your Bottom Dollar Germ-Processed Oil won't fail you these cold days"

The multitude of motorists who have switched to Conoco Germ-Processed Motor Oil know what a great oil it is for summer use. Maybe they are wondering how it will act in cold weather at zero and below. The makers of Conoco know. Better still, thousands of users know, from their experiences of last winter. In Canada, Montana, the Dakotas... in Denver... with temperatures far under zero, Conoco Germ-Processed did not congeal. It remained fluid and continued to furnish efficient lubrication.

This accomplishment is no surprise. Conoco Germ-Processed is easy starting, non-congealing at sub-zero temperatures, because it is a thoroughly de-waxed paraffin base oil. The Penetrative Lubricity of Germ Process makes certain an ever-present lubricating film in your motor, even after long periods of idleness... particularly valuable at starting time, when 40% to 60% of motor wear occurs. Save this wear on your motor... your battery... your nerves. Drain and refill now with the proper grade of Conoco Germ-Processed oil at the sign of the Conoco Red Triangle. All grades, 35¢ per quart.
