

Ready for Your Fields

**JOHN DEERE
No. 999 CORN PLANTER**

Get into your fields this year with a John Deere No. 999—the planter that has increased the profits of thousands of farmers.

Here are some of the points of merit of the "999" that have made it such a popular favorite throughout the entire corn belt:

1. John Deere Natural-Drop Seed Plates, sloping hopper bottom, improved metal cut-off and roller knocker—make the most accurate dropping device.

2. Plants any kind of corn,

beans, peas, sorghum, milo maize, kafir corn, feterita, beet seeds, shelled peanuts, and other seeds, without changing cut-off.

3. Can be changed to drop two, three or four kernels per hill, as desired, without stopping the team. Drilling distances changed just as easily. Nine drilling distances obtained with one plate.

4. Safety fertilizer and pea attachments made so that either or both can be used at the same time corn is being planted.

5. Absolutely automatic marker; convenient underhung reel; quick-detachable runners and a big variety of attachments to meet unusual conditions.

There are many other features of the "999", but we want you to see them for yourself. Come in any time.

ANOTHER EXAMPLE OF FORD VALUE

Bright, enduring RUSTLESS STEEL is used for many exposed bright metal parts of the Ford

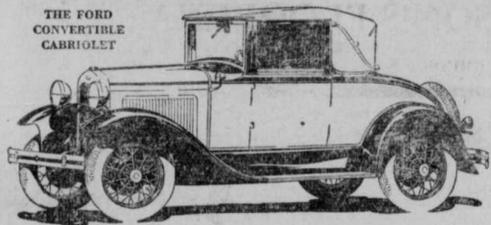

WHEN YOU BUY a Ford you buy enduring beauty. The body finish is made to last for the life of the car and practically all exposed bright metal parts except the bumpers are made of enduring Rustless Steel.

This Rustless Steel has great tensile strength. It is the same bright metal all the way through. A salt test equivalent to forty years' service under the severest weather conditions failed to have any effect on its brilliance. It never requires polishing. All you do is wipe it with a damp cloth, as you do your windshield.

This is just one of many features that show the substantial worth of the Ford. In speed, comfort, safety, economy and long life—in the richness of its finish and upholstery—it brings you everything you want or need in a motor car at an unusually low price.

Call or phone for demonstration.

THE FORD CONVERTIBLE CABRIOLET

Sunday, Mon., Tues., April 12-13-14
The one and only Greta Garbo in the most remarkable production of her entire screen career.

"INSPIRATION"
A Clarence Brown production with Robert Montgomery, Lewis Stone and Marjorie Rameau. With all Paris at her feet, she wanted only this boyish lover. Clad in clinging silks, radiant with the beauty that stirs men's souls, this idol of Paris had everything that she wanted except the love of one obscure youth. For him she made all sacrifice, trying to hide her amazing past from him. What a story of souls is this one. And never has gorgeous Greta thrilled you more exquisitely. A picture you must not miss. Her vivid past as an artist model, toast of Paris, lover's dream—she forgot all when she gazed into the eyes of her boyish lover. Here is a role to call forth all of the Garbo glamour. She lays bare the heart of a woman in love, in scenes that will never escape from memory.

Better Seeds for Better Gardens

Purebred Seeds will grow more successfully in your garden.

That's why Ferry's Seeds protect your labor and your garden investment. They are fresh for planting now. All ready to grow healthful, nourishing vegetables or beautiful, colorful flowers for your home. There's a Ferry Seed Box near you, in your neighborhood store, with a complete assortment of purebred flower and vegetable seeds. . . . Ferry-Morse Seed Co., Detroit, Michigan.

Now is the time to plant your garden. Now is the time to select Ferry's purebred Seeds. Seeds are the most inexpensive, but the most important feature of a successful garden. The soil and your labor represent the much greater investment in time and actual money; but the seeds you choose may mean the margin between success and failure of your efforts.

Ferry's Seeds are purebred. That means generations of seed plants are tested and checked in the Ferry-Morse special seed laboratory fields before any seed grown from a plant is placed on the market. Because of the rigid testing, Ferry-Morse seed specialists know that Ferry's pure-
