

# POWER MATTER UP ONCE MORE

### People of Hartington Again Consider Proposal of Outside Concern

Hartington, Neb. —(Special)— A mass meeting of the citizens of Hartington has been called for next Tuesday evening at the city auditorium to discuss the electrical situation.

A few years ago the citizens of the town and the Interstate Power company disagreed as to rates for electrical service and a second company came in and erected a plant under a franchise which provided that when the plant had paid for itself it would revert to the city. The rates were made much lower and then began a battle of existence between the two concerns.

As a result of the conflict the new company lost money and was sold to the high line interests.

Now comes the interstate company asking for a new franchise and unification of the two systems. The council is considering the proposed franchise and a group of citizens circulated a petition asking that a mass meeting be called for the purpose of discussing the proposal.

### BAD NEST OF YOUTHS UNCOVERED BY MURDER

Omaha, Neb. —Eddie, 20 years old, and Anton Jedlicka, 19, confessed participants in the attempted filling station robbery last Saturday night in which Policeman James Sullivan was fatally wounded, were held to the district court on charges of first degree murder.

A first degree murder charge was filed against William Griffith, implicated by the elder Jedlicka. Griffith is under arrest at Stockton, Cal., and has confessed participation in the attempted robbery, police there reported.

Paul Leahy, 21, confessed taxicab robber, whose story to his mother after she had found guns and clothing used in the filling station robbery attempt hidden in the Leahy attic, resulted in the arrest of the Jedlickas, was held to the district court on highway robbery charges.

Raymond Johnson, 17, who confessed stealing four guns from the sporting goods store where he was employed and selling them to the Jedlickas, was bound over on a grand larceny charge.

### MAKING SURVEY OF NIobrARA RIVER BASIN

Kansas City, Mo. —(Special)—The United States engineer's office here has under study a report of the Niobrara river basin in accordance with House Document 308, 69th Congress, 1st session, and of the flood control act of May 15, 1928. The provisions of the law in question require that the war department prepare a comprehensive plan for the ultimate economical development of the water resources of the Niobrara basin, in the combined interest of flood control, navigation, water power and irrigation, together with an evaluation of the effects of this plan on flood and navigation conditions both in the basin and elsewhere.

In order to obtain an expression of opinion in the matter from persons who might be interested in various projects involving the use of water in the Niobrara basin, the office will hold a public hearing at 10 a. m. April 27, in the Valentine auditorium, Valentine, Neb.

### FARMER HAS "GENEROUS" OFFER FOR HOUSEKEEPER

Omaha, Neb. — Wanted—One housekeeper, willing to accept \$3 a week wages.

This is the order that Guy Bair, 46 years old, farmer living near Oconto, Neb., has placed with the Omaha chamber of commerce.

"We have a washer and live on a mail route. I have no objections to good looks and I'll pay \$2 a week to a woman with one child and \$3 a week to a woman with no children—and I'll give her half of the chickens she can raise," Bair wrote.

He wants, he wrote, a woman no older than 35, but he added it makes no difference how young if she is capable. The job, he said, would last at least until September 1 "and maybe forever so far as I know."

### PERITONITIS FATAL TO RAILROAD CONDUCTOR

Norfolk, Neb.—Dan McGrane, 52 years old, Chicago and North Western railroad conductor, died here Friday from peritonitis caused by a perforated intestine. The funeral probably will be Monday.

### HERO OF PERSHING FIRE ENLISTS IN ARMY

Omaha, Neb. —(UP)— Top Sgt. Bill Harvey, Company I, Seventeenth infantry, the man who dashed into the burning home of Gen. John J. Pershing at the Presidio, San Francisco, in 1915, and dragged Warren Pershing to safety, has re-enlisted at Fort Crook for his eighth consecutive "stretch." Mrs. Pershing and three other children lost their lives in the holocaust which occurred while the general was on the Mexican border. Harvey has served consecutively for 25 years and will be retired on permanent retirement pay before his present three years enlistment expires.

### DIRECTOR NAMED FOR BOY SCOUT CAMP

Fremont, Neb.—(Special)—Kenneth Burkholder, Eagle Scout and assistant scoutmaster of Troop 102 of Fremont, has been selected as director of Camp Farnham for the coming summer. The camp is maintained by the Farnham District Boy Scouts of America, an usually draws boys from six to eight eastern Nebraska counties. Burkholder is a junior at Midway college where he is a football player, a varsity debater, and director of the college yearbook.

## Out Our Way

## Chickens Save Lifer

John Cerar's ability to raise prize-winning chickens has won him a release from a life sentence in prison. Ten years ago John was sentenced to die for murder. Friends succeeded in having the sentence changed to a life term. John entered prison in San Francisco and started raising poultry. His birds won so many cups and medals that he will soon be given freedom to enter the business. He is shown here with two of his prize winners.

## SNAPDRAGONS ARE CONSIDERED ONE OF BEST GARDEN ANNUALS

Snapdragons or, as they are becoming well known by their botanical name, antirrhinums, are one of the finest annuals for the garden. While grown as annuals because they bloom the first year, they are really perennials. They will survive the winter in the open ground in well drained soil if kept dry over the winter. A box or heap of leaves often will carry them through safely. The advantage of these older plants is that they come into bloom weeks earlier than seedlings and each plant furnishes a number of stems. A cold frame set over a bed of snapdragons will bring it through safely.

Snapdragon seed is fine and needs careful sowing not to get it planted so thickly that a large number of plants will not be destroyed in transplanting. It is best sown in cool quarters. It germinates rather slowly and at first growth is slow, the seed leaves enlarging before the true leaves get into action. After this slow start, however, it grows rapidly and spins up to a spike of bloom. It has become a popular greenhouse plant.

The tall giant types grown to one magnificent terminal spike are the kind used for greenhouse work. In the garden this type will do well but it cannot be expected to produce the magnificent spikes outdoors that it does under the controlled conditions of heat and moisture in a greenhouse.

A favorite method of growing the tall sorts is to let them grow until they have made 12 leaves. Then

pinch out the top, tie firmly to a stake and the plant will branch freely and make an oval bush covered with short spikes of bloom. This method produces the greatest amount of bloom from the plant.

The half-dwarf sorts are usually considered best for garden use, allowed to develop naturally. The dwarf sorts are used for edging. The half-dwarf, tall and giant sorts have much the same range of color. Give the snaps a foot of room to develop in the tall sorts and six inches in the number of public officials and employees; reduce all public expenditures. In the same breath many would probably demand that the government should also: Build more roads; provide better schools; enforce the laws more effectively; erect more public buildings; pay off public debts. It does not require a great deal of intelligence to comprehend that the accomplishment of these directly opposing objects is impossible. If people continue to vote bonds for roads, bridges, schools and public buildings, if they demand more officials of the law, better sanitary and health measures and so on, it is going to cost

## By Williams

the lower growing kinds to produce a mass of bloom. They like rich soil but will do well in poor soil. They want full sun to do their best. It is best to plant in beds of a single color for best grade effect and the snaps now come true to color from seed to a large percentage. They can be used effectively in color schemes, having everything but a blue range.

## Recommends Oats As Emergency Hay For Early Seeding

Pierre, S. D. — Oats is recommended as the most satisfactory emergency hay crop for early seeding by F. S. Wilkins, assistant chief in forage crops in the experiment station at Iowa State college. He also recommends soy beans and sudan grass for seeding after corn planting.

Oats and sudan grass are both good pasture crops, while rape can be used to excellent advantage, except as pasture for milk cows, he said. The mid-season varieties of oats, Dugreen, Green Russian, Silvermine and Swedish Select produce the highest yields of hay, but the early varieties are satisfactory.

Sudan grass will continue to provide pasture from a month after seeding until the first killing frost, Wilkins asserted, recommending it as especially valuable in furnishing an abundance of pasture during July and August.

Rape used for pasture may be sown alone at the rate of five pounds an acre from April 1 to July, he said. It may also be sown with oats or as a mixture with clovers and timothy with possibly a little rape with oats in early spring to provide a pasture to carry throughout the season.

Oats should be covered with a disc in the usual manner, he said, after which the clover, timothy and rape mixture can be broadcast and covered with a harrow. Rolling is recommended in case of drought.

The emergency seeding should furnish pasture from the time the oats are seven to eight inches high, throughout the season and also through the 1932 season, Wilkins said.

### BOYS FEEDING 3,256 CALVES IN BABY BEEF PROJECTS

Ames, Ia.—A total of 2,043 4-H club members in 83 counties are feeding 3,256 calves in the baby beef project for 1931, according to an announcement made from the boys' club department in the extension service, Iowa State college. The extension service and Iowa Beef Producers association co-operate on this project.

In 1930 there were 1,865 club members enrolled in baby beef clubs.

Clay county has the largest enrollment for 1931 with 110 members feeding 161 calves. Linn has the next largest enrollment with 67 members feeding 95 calves. Marshall county has 56 members feeding 117 calves. Other counties with 40 or more members are: Cass, Cerro Gordo, Crawford, Greene, Johnson, Osceola and Shelby.

The calves will be fed and fitted for the various state and county fairs and the best ones will be taken to the International Livestock show in Chicago. Following the shows the calves will be sold, usually at club auctions.

more money, with an inevitable increase in taxation.

### EMBRYONIC REPORTERS BUSY

Madison, Wis.—(UP)—University of Wisconsin journalistic tyros gathered and wrote 16,296 column inches of news matter during the four-month period ending February 1. Five of the 136 students enrolled in the sophomore reporting class this year exceeded 500 inches each, and two wrote over 1,000 inches. Most of the copy appeared in Wisconsin papers.

## Berliners Like Weissbier

Munich may lead the beer-producing cities in Germany, but Berlin follows a close second. It has a production of one-tenth of the total beer output of the country, as compared with Munich's one-seventh. Berlin's specialty is the so-called "weissbier," a light beer with low alcoholic percentage. The annual output of "weissbier" totals 5,284,000 gallons—a quantity which requires 2,000 railway cars to transport.

## EXCESS ACID SICKENS—GET RID OF IT!

Sour stomach, indigestion, gas, usually mean excess acid. The stomach nerves have been over-stimulated. Food sours in the stomach. Correct excess acid with an alkali. The best form of alkali is Phillips' Milk of Magnesia. It works instantly. The stomach becomes sweet. Your heartburn, gas, headache, biliousness or indigestion has vanished!

Phillips' Milk of Magnesia is the pleasant way—the efficient way—to relieve the effects of over-acidity.

Phillips' Milk of Magnesia has been standard with doctors for over 50 years. 25c and 50c bottles at druggists.

### After Many Years

During the Civil war a soldier cut his name, "Moats," in a 50-cent piece. For 30 years thereafter he thought no more about it, when one day the postmaster of Scotch Grove, Iowa, where Moats conducted a blacksmith shop, showed him a 50-cent piece with the word cut in it—"Moats."

### In Ring Language

Madge—I just saw that French nobleman who's after Doris—he's a knockout.

Mame—You said it, and Doris is going to take the count.

### Pretty Name for Room

A sitting room in the early days was known as the keeping room, because the family treasures were kept there.

### Think It Over

Good cheer is almost as essential to life as sunshine, air and water—and is quite as plentiful.

Laziness, if it is of the exalted sort, thinks of this universe and of the individual, "What's the use?"

It is necessary to get a man interested in his soul before he can be made anxious to "save" it.

Property is proper, but some people are so proper, that their property is all there is proper about them.

It is always cheerful to hear a man bragging on his friends.

Pride goeth before destruction.

# WHEN YOU CAN'T QUIT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry-on in comfort.

Bayer Aspirin was meant for just such times, because it insures your comfort. Freedom from pains that nag at nerves and wear you down. One tablet will block a threatening headache while it's still just a threat. Take two or three tablets when you have caught a cold, and that's usually the end of it.

Carry Bayer Aspirin when you travel. Have some at home. It will often "save the day."

From a grumbling tooth to those rheumatic pains, Bayer Aspirin is ready with its quick relief—and it always works. Neuralgia. Neuritis. Any nagging, needless pain.

Get the genuine tablets, stamped with the Bayer cross. Why experiment with imitations costing a few cents less? The saving is too little. There is too much at stake. But there is economy in the purchase of genuine Bayer Aspirin tablets in the large bottles.

Inventors. Get our \$10 analytical report on your invention or idea. It includes technical, manufacturing and marketing advice. 525 National Bldg., Terre Haute, Ind.

## Bad Stomach Cause of Bad Skin

You can't expect to have a good clear skin if your stomach is weak and disordered.

Undigested food sends poisons through the body, pimples appear—skin grows sallow and loses color. But these troubles will end quickly and skin clear up if you will start today taking Tanlac.

Tanalac is made from herbs, bark and roots. A tablespoonful before each meal stimulates the digestion naturally so that you can digest what you eat. And when your stomach is in good shape again watch how quickly skin begins to clear up. At your druggist's. Money back if it doesn't help you.

Sioux City Ptg. Co., No. 17-1931.

### Shocking Savagery

Explorer—I have made a remarkable discovery. A tribe of human beings that possess no weapons of warfare.

Listener—Is that so? I didn't think there was any part of the world that uncivilized.—Chicago Daily News.

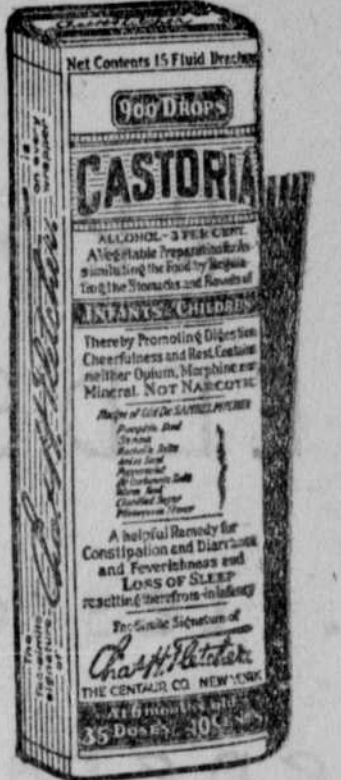

Nations and men are only the best when they are the gladdest, and deserve heaven when they enjoy it.—Richter.

It is an easy matter to bear the aches of another's corns.

A little flour by any other name would no doubt smell as sweet.

## No more COLIC pains ... give Castoria

ACRY in the night may be the first warning that Baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. When there's need of gentle regulation. Every child loves the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use.

A... a more liberal dose of Castoria is usually all that's needed to right the irregularities of older, growing children. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. It's prescribed by doctors!

## How One Woman Lost 20 Pounds of Fat

### Lost Her Double Chin

### Lost Her Prominent Hips

### Lost Her Sluggishness

### Gained Physical Vigor

### Gained in Vivaciousness

### Gained a Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves should have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you real-

ize it—you're growing hideously fat! Take half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 3 weeks get on the scales and note how many pounds of fat have vanished. Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—honor in mind. KRUSCHEN will give any fat person a joyous surprise.

Get an 8-oz bottle of KRUSCHEN SALTS (lasts 4 weeks). If this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.—Adv.
