ADVERTISING RATES:

Display advertising on Pages 4, 5 and 8 are charged for on a basis of 25 cents an inch (one column wide) per week; on Page 1 the charge is 40 cents an inch per week.

Every subscription is regarded as an open account. The names of subscribers will be instantly removed from our mailing list at expiration of time paid for, if publisher shall be notified; otherwise the subscription remains in force at the designated subscription price.

COUNTY AGENT NOTES

James W. Rooney, Holt County Agent

Two new 4-H clubs were organized the past week. The Steel Creek Pig Club was organized at district 122 on Monday evening, April 13.

Change of Office Personnel

Mrs. Anna Thompson, of Inman, has been chosen as office assistant to replace Miss Elizabeth Eggleston of Ewing who resigned the position and returned to her home at Ewing.

Prairie Dog Poisoning Demonstration

There will be two prairie dog poisoning demonstrations held in the Atkinson and Stuart communities next week. A demonstration will be held at the J. B. Fullerton farm 4 miles east and 3 miles north of Atkinson, at 10 o'clock Tuesday, April 28.

Brooding Equipment Suggestions

Poultrymen who have used the sun parlor in connection with their brooder houses list five advantages: 1, it economically enlarges the brooder house. 2, chicks are permitted to get away from the heat and exercise in cool air.

Hardware cloth may be used in brooder houses as a cover for feed and water platforms. The hardware cloth is not recommended to cover the entire floor area because the use of it makes it difficult to control floor drafts; chicks toes may become sore, which will encourage cannibalism; cleaning of hardware cloth is just as difficult, if not more so, than clean-

ing floors, and the caretaker cannot walk around over hardware cloth as he would over a floor.

FREE MOVIE SHOWS THE FORD AUTOMOBILE PLANT

Sound Motion Picture is Feature of Big Exhibit Arranged by Local Dealer

A sound motion picture, graphically portraying the story of the Ford Motor Company and its widespread activities will be exhibited free of charge in a special Ford exhibit to be held at the Mellor Motor Company show rooms, in O'Neill, beginning on Wednesday, April 23rd, and continuing through Saturday, April 25th.

The picture, entitled "A Tour Through the Ford Factory," will show the gathering of raw materials, their arrival at the Rouge Plant in Dearborn, Michigan, and the numerous interesting stages through which they pass in the process of making Ford cars and trucks.

While an unseen voice explains each scene, the audience is taken on a tour of the plant through the great blast furnace building where ore is converted into iron; into the open hearth building where the iron becomes steel and is poured, a white hot liquid, into moulds; into the blooming mill where the steel ingots are made into bars; and into the rolling mill in which the long bars of white hot steel are reduced to definite sizes.

The picture shows also the manufacture of glass in an endless unbroken strip, a process developed by Ford engineers; the machine shops in which parts for the car are manufactured; the pressed steel building with its gigantic presses; and the coke ovens and other units in which by-products are recovered to the extent of millions of dollars annually.

Throughout the picture one sees literally miles and miles of conveyors which take much of the manual labor off the backs of men. There are conveyors carrying newly arrived materials into the plant, others taking parts from one building to another, and, of course the final assembly line and that famous conveyor on which the parts are put together to form the completed car.

In addition to the picture, there will be a representative line of Ford cars and trucks and display boards containing car and truck parts.

The cars alone are well worth a visit to the show for they include body types to suit any taste and to meet any occasion. Particularly attractive are the deluxe cars in which upholstery appointments are of a kind and quality usually found only in more expensive automobiles.

All the body types are featured by the Ford's new beauty of line and color. The deep radiator, the wide, sweeping fenders, and the graceful, sweeping lines of the bodies contribute to a pleasing whole. The cars may be obtained in a variety of color combinations.

DAVID STANNARD

The funeral services for the late David Stannard were held from St. Patrick's church at nine o'clock Friday morning conducted by Rev. Father B. J. Leahy, as announced in The

Frontier of last week.

Mr. Stannard passed away at the family home on Fourth street shortly after six o'clock Wednesday following a ten days illness caused by pneumonia, at the age of 73 years, 7 months and 26 days.

David Stannard was born August 19, 1857 at Carthage, New York. He came to Holt county in 1879, from Independence, Iowa, and located on a homestead near Opportunity, where he and his parents resided for a time.

He was a stone cutter by trade; he purchased the building in O'Neill where the family reside and where they have conducted a cigar store and news stand for a number of years, and opened up a monument store and stone-cutting room which he conducted for a number of years; he sold the building later but in a few years again became the owner of it; he again sold the building to Mr. Reka, who operated a cigar factory there for a number of years; in 1909 he again purchased the building and opened the cigar, confectionery and news stand that the family are still operating.

Mr. Stannard and Miss Margaret Burke were united in marriage in O'Neill, June 9, 1886; to this union eight children were born; they are Mrs. Laura Burke, O'Neill; Mrs. Willard Jones, Denver; Mrs. Max James, Bakersfield, California; W. B. Stannard, Los Angeles; Mrs. John McManus, O'Neill; C. D. Stannard, Bakersfield, California; George A. Stannard, San Diego, California; Donald Stannard, O'Neill. The children with their mother, survive.

The deceased also leaves a brother, George Stannard, Gordon, Nebraska, and a sister, Mrs. Phoebe Kellner, Yankton, South Dakota, who were here to attend the funeral services.

C. D. Stannard, Bakersfield, California, and Mrs. Willard Jones, Denver, Colorado, were here to attend the funeral services for their father. The pallbearers were P. J. McManus, P. J. O'Donnell, J. H. Meredith, H. J. McKenna, S. J. Weekes, J. B. Ryan.

CARD OF THANKS

We desire to thank all our friends for their kind assistance and sympathy during the illness and following the death of our dear husband and father.

Mrs. David Stannard and Children

MRS. RUDOLF HORACEK

A tragedy occurred at Chambers about 9:30 Sunday morning, April 19th, when Mrs. Rudolf Horacek was fatally burned at her home while starting a fire with kerosene. She was rushed to the Soldiers Home Hospital at Milford, Nebraska, but passed away somewhere near Columbus. The body was taken to Brainard, Nebraska, for burial.

The house, which was totally destroyed by fire, is covered by insurance.

Mrs. Horacek is about 54 years old and was the mother of three children, Edward, and Mrs. Anna Slama, Fairfield, Nebraska, and Joe, of Baleyville, Kansas. Mr. Horacek also survives.

MRS. FRED STANTON

Mrs. Fred Stanton, of Ewing, Nebraska, died Monday evening from injuries received when a tree fell on her, on the previous Friday.

Mr. Stanton was cutting down some large trees; one of the trees fell a different way than expected and struck Mrs. Stanton.

Like a Symphony . . . the best Gasoline is Blended

IT'S primer knowledge to the orchestra conductor that each group of instruments in the ensemble brings a necessary influence into the symphony's finished blend of tone.

containing the elements of the perfect fuel and deftly combine them until they blend in absolute harmony.

That's why CONOCO contains: Natural Gasoline, for quick starting . . . Straight-run Gasoline, for power and long mileage . . . Cracked Gasoline, for its anti-knock qualities.

No single type of gasoline can contain all these qualities. They are present, though, in CONOCO Gasoline . . . blended there into a symphonic, harmonious whole, with CONOCO's master refiners wielding the baton. For, after all, it's in knowing how. That's why some musical directors, as well as some refiners, achieve fame.

You'll find this triple-test gasoline with the balanced-blend wherever you see the CONOCO Red Triangle.

CONOCO

THE BALANCED - BLEND GASOLINE

CROWN RULERS AT THE CREIGHTON UNI. BALL

The following articles are taken from the Omaha daily papers, and tell of the success achieved by Merl Hunt, formerly of this place, who has been prominently mentioned many times during the past few years, for his stellar activities in basketball, football and track.

Merle Hunt of O'Neill and Miss Olga Yoder of Elm Creek were revealed as king and queen of the Creighton university junior-senior prom at the annual spring social event held Friday at the Fontenelle hotel.

Hunt, football and basketball star at Creighton, is a senior in the college of dentistry, member of Xi Psi Phi fraternity and of the senior Odontological society and secretary of the Club.

Both king and queen who presided at the Creighton university junior-senior prom Friday night were outside students.

Miss Yoder, who graduates from the college of pharmacy in June, to take over her father's business at Elm Creek, is president of Lambda Kappa Sigma sorority. She was secretary of her class in her freshman and senior years.

(World-Herald)

Above you see what can happen to any young college male, provided he is popular enough and proficient enough in campus activities. The pictures tell eloquently what happened Friday night at the Hotel Fontenelle ball room to Merle Hunt, who for three years brought glory to Creighton on the gridiron and basketball court. Henceforth, for a year at least Hunt will be known as King Creighton IX, for he was so crowned at the annual junior prom during ceremonies that gave him a queen, princess, princesses and everything else necessary to a complete court. Olga Yoder, of Elm Creek, was chosen queen.

Hunt is a senior in the dental college, a member of Xi Psi Phi, national professional fraternity, a charter member of the senior odontological society and secretary-treasurer of the "C" club. He was graduated from O'Neill High School, where he starred in football, basket ball and track. At Creighton he was a halfback for three seasons, being selected as an all-Missouri Valley conference back in 1929. He played varsity basketball for two years.

CHICKEN THIEVES BUSY AT W. F. GROTHE FARM

Chicken thieves made an official visit to the home of Mr. and Mrs. W. F. Grothe, who reside two miles northwest of Emmet, the first of the week, and reduced the number of chickens about twenty-five. The thieves selected only the large Plymouth Rocks.

EDUCATIONAL NOTES

The final Spelling Contest in oral spelling and the World-Herald contest was held in the court room on Saturday. Elda Mae Butterfield, dis-

trict 209 was winner of first place in the county oral contest and Lora Alm, district 122, received second place. Francis Soukup, a seventh grade pupil of St. Mary's Academy, O'Neill, was the winner of the World Herald contest and will represent Holt County at the World-Herald contest in Omaha on Saturday, April 25th.

The winners of first place in oral spelling and second place in written spelling, who are Elda Mae Butterfield, district 209 and Anna Toy, O'Neill Public School, will represent Holt County at the Interstate Contest to be held in Council Bluffs, on April 24th. The county winners of first place in written spelling and second place in oral, will go to the State Fair in September to enter the State Contest. These are Lucille Hickey, of St. Mary's Academy and Lora Alm, district 122. County Supt. Luella A. Parker will leave on Thursday morning to go to Omaha with the World-Herald and Interstate contestants.

Section 6543, Article XXII of the Nebraska School Laws requires that there shall be held each year in each county, an exhibit of school work done in the schools of the county. These exhibits in Holt county have been held at both the O'Neill and Chambers fairs, under very adverse conditions, due to the lack of space for an exhibit in a county as large as ours. We feel that the work of our school children is worthy of recognition and that we should have adequate space to exhibit it properly.

The subject of building Educational Halls for school exhibits at the county fairs has been under discussion for some time. This was taken up

with the teachers of the county at our Institute last fall, and with the members of the school boards at our rural school board meeting in February. At both meetings it was unanimously voted to make an effort to provide suitable buildings at O'Neill and Chambers for exhibiting and demonstrating our school work. A plan has been worked out by which the erection of these buildings will be financed by the schools of the county proportionately according to the valuation of the school district. This is a very worthy project and one we hope that will meet with the approval of everyone in the county.

SOUTH EMMET ITEMS

Miss Nellie Gaughenbaugh's school will close Friday with a picnic.

Mr. and Mrs. John Horn and Mr. and Mrs. James Coday were visitors at the Tom Maring home, Thursday.

Miss Bertha Marshall, who has been teaching school in Montana, is now visiting her sister, Mrs. Crawford.

Miss Christina Fritton gave a party at her home Friday, April 17th for her friends and neighbors; a good time was enjoyed.

An airplane was forced down about one-half mile west of the Coday home Wednesday night of last week, on account of engine trouble.

Visitors at the E. T. Evans home on Wednesday were J. F. Coday, Mr. and Mrs. John Horn, son Joe, Mrs. Art Burge and daughter, June.

Miss Nellie Gaughenbaugh gave a weiner roast at her school in district 59 on Monday; a large number of young folks attended and a good time is reported.

Better Seeds for Better Gardens

FERRY'S SEEDS ... tested for generations

HERE come tomatoes a deeper scarlet than have ever been grown before . . . and sweeter peppers . . . fatter, yellower squashes . . . all the vegetables in your garden give abundant evidence that Ferry's purebred Seeds produce more successfully. Colors in the flowers grown from Ferry's Seeds are more vivid, more gorgeous. They have a richer, deeper fragrance. All this heritage of superior size, color, radiance and flavor is due to generations of tested plants and seeds.

Ferry's Seeds are not placed upon the market until their strain has been tested through years of seeding and growth in

the Ferry-Morse laboratory fields. No wonder Ferry's purebred Seeds produce vegetables and flowers of unequalled goodness and beauty.

Look for the Ferry Seed Display Box filled with purebred seeds. It is placed near you, in your neighborhood store. Plant with Ferry's purebred Seeds this year and assure yourself of a successful garden. Ferry-Morse Seed Co., Detroit, Michigan.

FERRY'S purebred SEEDS

DIRECT-BY-MAIL advertising, reaching a selected list, can be a wonderfully effective adjunct to your newspaper advertising. A color job, made doubly attractive, trebly punchy by The Frontier typography and layout, will pay for itself tenfold in added sales. We'll gladly estimate costs for you.
