

# TRICKS of MAGIC EXPLAINED by Will L. Lindhorst

CLEVER TRICK WITH MAGIC ENVELOPES

Take two envelopes, place them together, one upside down with its back to the face of the other. Let the flap of one envelope overlap the back of the other, so that both flaps are on the back of one envelope. Then carefully paste the envelopes together, smoothing the edges so they appear as one. Now take two identical cards from a pinocchio deck, place one in one of the envelopes, which is then sealed and a tiny identification mark placed upon it. Put the other card on top of the pack, and appear before your audience. Ask some one to take this card from the top of the pack, burn it, and place the ashes in the envelope, the flap of which is open. Seal the envelope, say a few magic words, open it on the side where you have placed the mark, and lo! the burned card is taken out whole. Of course, the card taken out is the one previously placed in the envelope.
