

TO THE PUBLIC

We are compelled to postpone our opening until some time in July. The delay is caused by the late arrival of material for the completion of the carpenter work. The announcement of the new date will be made soon after July 4th.

McMILLAN & MARKEY

SAVIDGE SHOW TO EXHIBIT HERE SOON

The Walter Savidge Amusement Company will be in O'Neill Tuesday, July 7th and will be here for an entire week, presenting a host of new novelties and shows, as well as a complete repertoire of new plays in the big canvas theatre.

Mr. Savidge announces that considerable changes have been made in the big dramatic company, with new people and new vaudeville between the acts. He says that he has secured a top-notch group of new plays. The opening play on Tuesday evening, July 7th, is "For Crying Out Loud," a three act comedy-drama by Joe Lawless, the well known actor-playwright.

The story of "For Crying Out Loud" rotates around a family by the name of Kelly, and their friends—poor, rich, Yiddish and Irish. Those who have seen the bill report that an equal volume of sure-fire comedy material has seldom been done. Mr. Savidge says, "If you liked Abie's Irish Rose," you will be more than pleased with "For Crying Out Loud." For Wednesday night, Mr. Savidge's players will present Edmund Paul's story of southwest Texas, "Modern Wives and Absent Husbands," Thursday evening, "The Little Hoodlum," a comedy drama in three acts, by Ted and Virginia Maxwell, will be presented. This is one of the company's feature productions. Friday night's is "The Schemer's Reward," a three-act comedy-drama by Tracy Markey. Saturday evening's play, "The 18th Amendment," deals with the subject of prohibition. It is the Savidge company's feature bill.

Saturday's matinee production will be, "Married For Money," a comedy in three acts.

The merry-go-round, ferris wheel and kiddie rides will, as usual, be features of the well-lighted Savidge midway. Booth's Illusions is characterized as a 'show of magic wonders.' Baby May, the American fat girl, weighs 480 pounds and speaks seven different languages.

The Converse circus side show, feature last year with the Johnny J. Jones shows, makes its debut in this territory. In it, strange, curious and

unusual people from all parts of the world have been assembled. Koo Koo, the bird boy, and Clara Leroy, sister and brother born joined together, are features of the side show. It is billed as an "amazing congress of living human paradoxes."

Mr. Savidge says that he has gone to a great deal of expense to bring this circus side show from the east.

There will be a band concert each day and evening, and many free acts on the grounds. The show will exhibit for five days only in O'Neill this year. Week of July 7th to 11th inclusive.

Good Year To Caponize Cockerels

Several conditions at the present time indicate that this would be a good year to caponize some cockerels. J. R. Redditt at the Agricultural College, says. Feed will probably be cheap during the next few months, and the supply of dressed poultry will continue to be light, he points out.

According to the June economic situation statement prepared by Harold Hedges, receipts of dressed poultry at four principal markets were nearly a fifth less in May, 1931 than they were in May, 1930. Receipts have always continued light in the first two weeks of June. Farm flocks are smaller than usual and the number of chicks hatched this year is considerably under the average. Holdings of frozen poultry on June 1st were 43 per cent under last year and 30 per cent under the five year average.

Demand for poultry meat has also declined with demand for other things. Competition of other meats will probably be keener than usual during the coming winter when capons will be ready to market, Redditt says, adding a word of caution.

Healthy, vigorous cockerels weighing from one and one-half to two and a half pounds should be used to produce the capons. These birds will probably consume as much more feed than growing cockerels and weigh

from one to three pounds more than mature cockerels of the same age next winter. It will be necessary to feed the capons until January of February and make them heavy if the poultryman is to realize a profit on them. Only the medium or heavy weight breeds should be used for capons. It does not pay to caponize leghorns or similar Mediterranean breeds of chickens.

Two circulars are available to Nebraska people regarding capons and caponizing. One is prepared by the Nebraska poultrymen at the Agricultural College and is Extension circular No. 1431. The other is a farmers bulletin from the U. S. Department of Agriculture, No. 849. In each of the circulars there are diagrams and directions regarding the selection of the birds and the operation.

Millet, Cane and Sudan Grass

A large amount of roughage may be secured from sowing millet, cane and sudan grass. G. F. Wadsworth, living north of Middle Branch, has cut his rye for hay. He is planting this ground to millet and cane. Mr. Wadsworth says that with ordinary rainfall he will secure plenty of roughage. Millet, cane and sudan grass for forage can be seeded up to July 1st. These plants make cheap forage which will be of value for feeding on most farms.

Parts of Holt County were visited with nice rains last Friday and Saturday. The MacaNally family are living in their newly built garage until their new house is completed.

There has been several reports of coyotes in the vicinity northeast of Emmet, lately. A few weeks ago a coyote came into Cal Tenborg's yard and took a chicken; other neighbors have heard coyotes howling and have found feathers of destroyed chickens near their homes; two-legged coyotes also visit the neighborhood sometimes. The only difference is that the latter are kind enough to take the feathers and all so there will be nothing left to remind the poultry raiser that he once had a nice flock of chickens.
