A Glorious Inheritance

If we do our best! if we do not magnify trifling troubles; if we look resolutely, I will not say at the bright side of things, but at things as they really are; if we avail ourselves of the manifold blessings which surround us, we can not but feel that life is indeed a glorious inheritance.—John Lubbock.

Prize Winning Recipes To Be Announced Soon

C. Houston Goudiss, who writes our "WHAT TO EAT AND WHY" series, reports that the Cake Recipe Contest which he recently conducted through the columns of this newspaper was a gratifying success.

A tremendous number of recipes were submitted and the home economists on the staff of his Experimental Kitchen Laboratory in New York city have been busy for days testing and tasting almost every imaginable kind of cake. They report that our town has some very fine cake bakers!

They regret that it was impossible to acknowledge individual entries, but they thank every home-maker who entered the contest, and have asked us to say that each recipe will be given the most careful consideration.

Because of the volume of recipes submitted, they will require a little while longer to "complete their tests and to arrive at their decision as to the winners.

Prize winners will be reported in these columns in the near future, and as announced at the beginning of the contest, prize winning recipes, together with those receiving honorable mention from the judges, will be printed in a booklet to be distributed nationally.

Don't Get Hurt

Below are given some suggestions for "Safe Gardening" compiled by the National Safety Council:

Replace split, broken or sharp-edged handles. Avoid splinter and other wounds.

Always cut away from you in using a knife.

Get first aid for any cut or scratch, no matter how slight it may seem to you.

Never leave a hoe, rake or fork lying or standing with the head pointing up.

Carry any cutting tool with the blade facing downward.

In driving nails, start the nail with a few light taps, then remove your hand and proceed.

Never leave a scythe or sickle hanging in a tree. Hang them, heads up, on the wall.

Use a hatchet or ax with great care; a glancing blow may cause a serious injury.

Tools not in use should be placed on shelves, in racks, hung up, or otherwise safely stored in tool sheds, according to their nature.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feet tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste.

Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.
