 is an interference with its business and with interstate commerce.

A decided reduction in occupation taxes on vending machines was proposed in an ordinance introduced at a meeting of the Lincoln city council last week. The proposal provided that the ordinance shall not be construed to permit operation of games of chance; also declares it illegal to vend any article of merchandise which cannot legally be sold to minors, and prohibits vending of articles restricted by state law. A fine of \$100 is provided for failure to pay the occupation tax due May 31 of each year, each day to constitute a separate offense. The reduction suggested is from the present \$10 to \$3 for each machine vending 1-cent merchandise, with a graduated scale upward of 50 cents for each additional penny of merchandise.

The Nebraska budget has been increased by more than six million dollars over that of last year, according to the report of expenditures for the fiscal year ending June 30, just made by Tax Commissioner W. H. Smith. Total expenditures amounted to \$29,062,986, which is \$6,489,595 more than that of 1935-36. The greater part of the increase is due to the social security program. A total of \$5,550,486 went for salaries and wages in all state departments and institutions.

The last large letting of the season was held by the state highway department Thursday, when bids were opened which were estimated at approximately \$711,215. Among the projects was one of 13.8 miles of stabilized base, prime and armor coat, between Crete and Lincoln; also 3 miles of grading, pavements and culverts between Hastings and Grand Island, in Hall county; and 6.1 miles of blacktop paving between Fremont and Mead, in Saunders county.

\$43,000,000,000 IN THE RED
 One year from now, the federal debt will be in excess of \$43,000,000,000. If relief expenditures continue, which seems likely, it may go far beyond even that stratospheric figure.
 In the light of that fact, is it any wonder that business is wor-

ried—that the investor is discouraged—and that unemployment is near the record level? Government, like an individual, can spend beyond its income just so long. Then comes bankruptcy.

If the next Congress wants to avert that end, it will give thorough and immediate attention to the tax and debt problem. Until an honest start is made toward a balanced budget and regular debt reduction, we can't have good times in this country.

Chicago police have banned the sale of toy cap pistols in the Windy City. Now if they could only do something to curtail the sale of machine guns, all would be well.
