

'Breath Smeller' Determines Drunkenness

A driver, stopped by highway police in Long Island, N. Y., prepares to blow up a balloon in a test for drunken driving on the highways. At the right a police technician tests the air in the balloon for alcohol content. Forty-eight out of 100 drivers stopped in Nassau county were found to have been drinking.

Mothers Shun Back Seat in Modern Life

By PATRICIA LINDSAY

WOMEN who can pride themselves on being modern mothers never find it necessary to take a back seat even though their daughters may be extremely beautiful and talented.

When mothers complain to me that their daughters push them in the background (whether it be in the home or out socially) I take time to write them a long personal letter to help them out of their difficulties. I do, even though perhaps

Billie Burke has kept her youthful charm and beauty although she is the mother of a grown daughter, also in the movies.

I shouldn't, ask them rather pointed questions—"How did you bring up your daughter?" "What happened to you while she was growing into an adult?" "Do you keep yourself up in appearance?" "Are you a woman your daughter and husband are proud to exhibit?"

Those are poignant questions. It takes steady nerves for most complaining mothers to answer.

Let us assume that during the time when daughter was growing up, mother had no easy time of it. She had a lot of work to do and money was scarce. She sacrificed a great deal to give daughter nice clothes, a good schooling, and a healthy life. All right. Her mother love dictated. She enjoyed doing that.

Of course she hoped, and rightfully expected, that when daughter did grow up she would be grateful for this loving care. Perhaps daughter, during her difficult teens, or was not, grateful. Perhaps she had been thoroughly spoiled. Perhaps for years she expected mother to do all she did do because mother never took the trouble to train daughter to be grateful. All that happens.

Important Details To Watch

You and I know that sheer materials are a nuisance for they do not permit the slightest carelessness! Our straps must never be pinned! If we wear more than one strap they must look as one through our blouse. A slip that is the least bit mussed will look untidy, and any slip should not show through the side closing of your dress! Nor should a slip show beneath the hem of your dress. The only way to shorten a too long slip is to hem it over—never, never knot the strap.

Cut out toes in shoes are most comfortable and serve as much needed ventilators for the feet but they are hard on stockings! When you wash your hose be sure to scrub the toes well for how shocking to see a soiled toe peeping out from your shoe!

Speaking about shoes—they must be aired frequently. It is a good idea to shake in the shoe a little deodorant powder once a week and leave it in over night. Before wearing brush it out. That helps to keep your feet fresh.

Here's to more careful grooming!

Character Made Her Beautiful

"When I first looked into Jenny's beautiful eyes," Bill told me, "I knew I had to marry her. She's the most gorgeous creature in the world!"

What Bill had really seen in Jenny's eyes was a person of charm and depth of character. She had made the most of herself. Her grooming was meticulous and she selected her clothes with great care. And she certainly had done a lot with that plain little face which the Creator had given her. But that wasn't all. She had let her grand sense of humor (often an Ugly Duckling's compensation!) carry her through life with colors! She lived happily, kept herself busy and proved to all the ugly ducklings that not being beautiful is no handicap if you face facts. For Jenny got her man, and a mighty nice man at that!

HOW TO SEW

by Ruth Wyeth Spears

"DEAR MRS. SPEARS: With the help of Book 1, I have just made a slip cover for a wing chair. I never would have tried it if your directions had not been so clear. I am now planning another slip cover and draperies which I would like to trim in fringe. Will you please show me with a sketch how I should sew the fringe? Also should the draperies and chair match?—M. J. N."

So here we have the sketches showing how to apply fringe in the seams of slip covers and also for an edge finish. The raw edge of the material in the lower sketch is turned to the right side and fringe is stitched over it.

Safe Winter Driving

Safe counsel for bad driving weather, according to police officials and safety engineers, is "when in doubt, use tire chains."

This warning was issued with winter driving conditions prevailing, following a recent revelation by the National Safety Council which said: "One fifth of all the people killed in traffic accidents in the entire year die in November and December alone!" Police assert there is even a greater percentage of personal injuries and property damages directly traceable to snow and ice.

Because of the conceded safety advantage of tire chains on snow or ice, police and safety engineers this year are urging their use when necessary in the interest of public safety, and because they provide the most positive anti-skid and traction yet developed.

Naval Board Proposes U. S. Defense Bases

Air, submarine, destroyer and mine bases, necessary to the adequate defense of the U. S. and its possessions, have been mapped by the naval board, which congress in 1938 directed to survey the coastlines of the United States and its possessions. Shown here are projects recommended in a report submitted to congress by Secretary of the Navy Claude Swanson. These sites, in the opinion of the board, are best situated for defense bases.

LARRY KURPIEL holds up one of those easy-rolling, extra-tasty P. A. smokes he's talking about. He goes on: "Out of every Prince Albert tin, I'm getting around 70 of the mellowest, smoothest 'makin's' smokes ever. They're so rich-tastin' and fragrant that I know P. A.'s better tobacco!"

Prince Albert's specially cut, too ("crimp cut," we call it) to roll quick and trim—to smoke slow, cool.
