The Monday game resulted in another victory for O'Neill with a score of 10 to 3. The same batteries were again in action. The game going only 7 innings. In the seven innings Steele fanned 12 men. He is by log odds the best twirler that ever shot a baseball across the plate in O'Neill. He has splendid curves, terrific speed and perfect control, making him almost invincible to most of the amateur players.

Chadron Journal—The game Sunday between O'Neill and Pine Ridge drew even a larger crowd than the day before, as it was expected to be the game of the season. Before many innings had been played, it was evident that the copper colored boys from the Ridge would have to play stronger ball or be completely shut out. It was a battle of pitchers, with Steele an easy winner.

The Weather

The weather has been hot and dry for the past week, not only in this county but all over the state. The excessive heat and dry weather has materially decreased the corn crop in the southeastern part of the state, while in the potato district in the west end the extreme heat and dry weather has greatly decreased the prospects for a bumper potato crop. What Nebraska is greatly in need of is a rain of about one weeks duration, that will put the ground in shape for the planting of fall crops. Following is the chart for the week:

Sept. 14	99	78	
Sept. 15	98	71	
Sept. 16	82	52	
Sept. 17	86	49
