Family Buying Power Growing

Drop in Living Costs and Increase in Payrolls Responsible.

MINNEAPOLIS.—Family buying power in the United States is now running \$75,000,000 a month higher than last summer. The gain is due to a drop in living costs and a sharp autumn expansion in payrolls, according to a quarterly study of price and wage relationships by Northwestern National Life Insurance company.

A month's supply of food for an average U. S. family of four can be bought for almost a dollar less than last June; smaller savings in other sections of the family budget run the total reduction from June living costs to well over a dollar.

Gain in Buying Power. At the same time expanding employment and payrolls have boosted the average family paycheck almost \$2, yielding a net gain of approximately \$3 more goods per month which the average family can buy today, compared with its situation last summer. Allowing for the unemployed, the net gain in total family purchasing power aggregates at least \$75,000,000 per month, the study states.

Judging from the rising trend of wholesale food prices in November, living costs are due to turn upward again, the survey notes. Payrolls are expanding also, however, with the holiday season just ahead, so that the gains in net buying power should be maintained over the near future, at least.

Charting the effects of price and wage changes on the average family's pocketbook, the study shows that a family earning and spending \$120 monthly at average wage and price levels of 1933, had to spend \$137.29 at October, 1938, price levels to maintain the same standard of living. Meanwhile, however, its average monthly paycheck had climbed to \$141.31.

At price levels of last June, the same family's monthly expenses figured \$138.43, a dollar higher, while its share of the smaller summer payrolls was \$139.50, almost \$2 less.

Drop in Food Prices. Most of the saving on living costs shown since last summer is due to the drop in food prices. A month's supply of food for a family of four, purchased for \$30 at 1933 prices, cost \$36.20 for the same items in June, 1938, but only \$35.41 in October, 1938. A slight shading in rental rates and clothing prices accounts for the remainder.

Compared with October of last year, family buying power has recovered all the ground it lost in the depression then beginning. The average family paycheck is almost \$6 less than the October, 1937, figure of \$147.24, but monthly living expenses are down \$6 also, from \$143.49 as of a year ago. A month's supply of food cost \$38.36 at October, 1937, prices, \$3 more than the same items cost now.

Statistically, the report points out, the coming winter should show many gains over figures for last winter, which reflected severe depression conditions.

Long Idle English Land Producing Bountifully LONDON.—Thousands of acres of land in England which have lain idle for more than a hundred years are now producing some of the best flax and wheat in the country.

Five years ago, J. W. Tomkins, with his brother and father, rented 5,500 acres of bracken covered land in the Peterborough district. With hard work and modern machinery they have succeeded in turning a wilderness into profitable fields and grazing land.

"There are millions of such acres in England lying absolutely idle," said Tomkins. "Anyone who cares to inspect them may see for himself how England could be made much more nearly self-supporting and could find work for thousands of men."

Rule of Three Credited For Prosperity of Town HAPPY CAMP, CALIF.—This city insists it owes its present prosperity and happiness to the fact that it has always lived by the "rule of three."

It has three stage lines, three merchandise stores, three restaurants, three hotels, three wood yards, is installing its third bar, has three churches, and plans are under way for three dress shops and three gift shops. The only enterprises free from competition are the bakery, laundry and first-aid clinic.

Boy Preacher Yearns To Be Railroad Man DAYTON, OHIO.—Eight-year-old Charles Jaynes, the nation's youngest ordained minister, thought it was "fun" marrying a Dayton couple. However, his serious advice is that "young lovers should get married and stay married."

Young Jaynes, a disciple of Aimee Semple McPherson, lives with his parents in Cleveland. His ambition is to be "a combination engineer, fireman and brakeman on a streamlined train."
