Ray Conard and Levi Morseback, of Neligh, were here Sunday.

SURE... everybody notices the ONE black sheep!

That's one of the reasons why the Brewing Industry is co-operating with the legal authorities to eliminate ALL black sheep from Beer Retailing.

Our records show that only a few of Nebraska's 2,500 retail beer establishments disobey the law or permit anti-social conditions. Nevertheless . . . to protect beer's good name . . . the brewing industry wants undesirable retailing eliminated entirely. We want all beer taverns to be what the vast majority already are . . . clean, attractive, decent places.

We are taking action to do this with our "clean up or close up" program. Good citizens can help this program by reporting law violators to enforcement officials or to our Committee.

Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. The Ford does that for 1941.

It has jumped ahead in size. It's the biggest Ford we've ever built, inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.

You'll notice also a new beauty, achieved by a skilful blending of mass with longer flowing lines. Larger windshield and windows give better vision all around.

One of its biggest advantages is the new soft ride.

New, slower-action springs give a slow, gentle, gliding movement. A newly designed stabilizer helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

Get the Facts and You'll Get a Ford!
