The BEN FRANKLIN Store

"Hot Time!" Cold Night. Parked Late?

Never mind... start up in jig-time!

Bad days ahead. But here's how Winter OIL-PLATING maintains needed lubricant in advance — for Safe Quick Starts...

If you depend on crankcase oil alone, when starting up cold, you'll wait till it climbs a good ways—and goes warming around. But now!... no more risky wait for that first badly needed lubricant... not with your engine OIL-PLATED for Winter by changing today to Conoco Germ Processed oil.

In this patented oil—at a normal price—is a rare extra substance, created by man, to fasten lubricant firmly to metal. The result is OIL-PLATING, attached to inner engine parts as closely as the chrome-plating on bumpers. Like chrome-plating, OIL-PLATING doesn't all drain down during parking, but stays up as high as piston rings reach—ready to fight for oil economy by fighting the wear of oil-starved starting.

OIL-PLATE now—at Your Mileage Merchant's Conoco station. Continental Oil Co.

Conoco Germ Processed Oil OIL-PLATES YOUR ENGINE
