Here's a gift that will be appreciated the year around by the whole family!

The price on this handsome Modern Chair didn't just happen! There's a real Gamble story behind it! We told a fine chair maker that we wanted a Modern Chair covered in lovely fabric, designed with graceful blond legs and stuffed with the hand-tied steel springs and seisal padding that makes for comfortable sitting—and that we wanted to sell it for less than \$20! So this fine chair maker went to work and saved you \$\$ by using remnants of his grand friezes and tapestries instead of cutting from bolts! Now here's the Chair—roomy and comfortable for even husky men... elegant in livingroom or bedroom!

Can you blame us for boasting about the price!
