ARE YOUR CAKES Perfect?
 A Gas Oven Is Always Dependable!
CONTROLLABILITY...
 Mrs. America is accustomed to precision. She likes closely controlled, healthful temperatures in her home (and her first choice is automatic gas heat) and she likes an automobile that will throttle down in slow traffic or zoom through mile after mile on the open road. Gas gives her choice of a thousand heats on her top burners, not just three or five or seven. And gas gives her smooth, even temperatures in her oven, not the zig-zag on-and-off swings of 25 degrees up and down.
