

Bad Roads Slow Thursday's Sale

In spite of roads that were almost impassable, farmers in the O'Neill region last Thursday marketed 144 hogs and 262 cattle at the Fredrickson Livestock Commission company's regular weekly sale here.

The cattle market was a little slow, about 50 cents to a dollar per hundred-weight lower than last week.

The best steer calves—460-pounders—sold from \$26 to \$27 per hundred-weight. A few light 300- to 350-pound calves sold up to \$28 per hundred-weight. The common kind brought from \$21 to \$24.

Some good springer cows sold from \$170 to \$183 per head and feeding cows went for \$15.50 to \$18 per hundred-weight. A few fat cows brought \$17 to \$18.50 and some heifers brought up to \$23.

Top butchers at Thursday's market here in O'Neill sold at

\$21.40. Some 250- to 270-pounders sold around \$20.50 to \$21. Sows went for \$16.50 to \$17.50 and good 100- to 125-pound feeder pigs sold from \$25 to \$26.10.

Ewing School Calendar Completed

EWING — The Ewing school calendar has been completed with the following events being scheduled: March 28—Nebraska Wesleyan glee club; March 31 and April 1—Junior play; April 20—Pep club banquet; April 22—Norfolk junior college chorus; April 23 and 29—Senior play; May 4—Junior-senior banquet; May 6—Senior sneak day; May 8—baccalaureate; May 13—commencement. Dean Frank O. McIntyre, of Norfolk junior college, will deliver the commencement address and Rev. Peter Burke, of St. Peter's Catholic church, in Ewing will give the baccalaureate sermon.

Chancie Hull was here Friday, March 25.

Edward Carson was in Redbird Friday, March 25.

Mrs. Anna Carson is spending the weekend at home at Albert Carson's March 26-27.

Glare of Publicity Is on Nebraska

By A. STROLLER

PHOENIX, ARIZ., Mar. 18.—Nebraska has been very much in the spotlight in Southern Arizona during the past few months. The state has been getting a great deal of publicity.

The writer would hesitate to say that it is all favorable publicity Nebraska has been receiving; but, on the other hand, he would not call it unfavorable. People don't criticize Nebraska—they just sympathize with her.

Obviously, the publicity which my state has been getting in this state and all over the country has been due to the terrible Winter which the Midwest has experienced.

It started with a blizzard in November and continued with increasing fury until the latter part of February. Possibly, the blizzards are still raging, but it is doubtful. In any event, it was an awful Winter, unprecedented for snow, wind and cold, and it wasn't long before it began to attract attention all over the United States.

Reference to the daily and weekly newspapers and the magazines of the country will furnish ample proof of that fact.

Nebraska leaped into the spotlight and remained there for months. The record-breaking snow which fell during the period and which was whipped by the wind into huge drifts was photographed again and again and featured on front pages from one end of the country to the other. A recent issue of Life, for instance, contained a full-page picture of a big drift of snow which had blown through a keyhole.

And the Nebraska Winter had the spotlight turned on it in this state and this city.

It was publicized on the front pages of the Phoenix and other daily newspapers, naturally, people read about it in the magazines and their own home town papers which they received and this writer himself did his part in giving it publicity.

Some of the best Winter pictures taken in Nebraska during the past few months were printed on page one of The Frontier and the writer, who receives the paper regularly, showed the various editions to a good many people and a copy of the World-Herald's special edition, "The

Blizzard of '49," has been passed around so much and read so thoroughly that it is almost worn out.

People have been interested, astonished and shocked. Dr. Fred Holmes, president of the YWCA board of directors, looked that publication over carefully and expressed a common thought when he said, "It is almost unbelievable."

Of course, the writer has, also, told various people things in regard to the Winter which he has learned from letters he has received.

The obvious effect of all this has been to turn the spotlight on Nebraska in full force; but, as stated above, it is doubtful that it has done the state any harm. (Next week: Stroller Visits Bible School.)

"... SURE SONNY—FLY YOUR KITE, but keep it away from the wires!"

Flying kites near electric wires can spoil all your fun and actually turn a good sport into a dreadful tragedy. So kids—when you take your kites out, play safe. We're all for you—fly your kites and have fun—but don't take foolish chances. KITES AND ELECTRIC WIRES DON'T GO TOGETHER. FLY KITES IN AN OPEN AREA—NEVER near electric wires.

USE A GOOD STRONG STRING BUT NEVER A WIRE OR METALLIC CORD. Keep your eye on traffic when crossing roads or streets. If your kite gets into trees or wires, be sensible—call for help to get it down.

GAS IS THE CLEANEST Fuel!

Cleanliness . . .

Mrs. America wants a clean kitchen. The greatest possible source of grease and odors is the broiler. But a gas broiler is designed so vapors must pass up through the flame, and are incinerated to water vapor (the same odorless gas that Mrs. America enjoys in soda water). Only the Gas Broiler can accomplish this Cleansing Incineration.

Announcing

"Voice of The Frontier" Time Change

WJAG
780
on
Your
Dial

WJAG
1,000-
Watt
Daylight
Station

Beginning Saturday, April 2, the "Voice of The Frontier" program will begin at . . .

9:45 A. M. — MONDAYS, WEDNESDAYS, SATURDAYS

. . . instead of 9:30 a. m. on the same days, which is the present schedule.

★ THE CHANGE is being made in order to provide Mary Moore, WJAG's Homemaker, with a 45-minute instead of 30-minute program, beginning at 9 a. m., and enable The Frontier to extend the length of its program to a half-hour when necessary. Make a note of this change on your calendar. New time — 9:45 — is effective Saturday, April 2.
