Another Phone Meeting Planned

AMELIA—A second meeting of persons interested in the South Fork Telephone company will be held at Amelia on Saturday, June 11, according to B. W. Waldo, Vern Sageser and Ed Jungman, members of the committee.

In an earlier meeting the committee was appointed to study costs and requirements in order to provide facilities to serve the community and to link up with other exchanges.

Amelia has been without telephone service for almost a year.

With the coming of REA, the committee feel that the complete metallic circuits will have to be built. Previously the single-strand was employed with the ground used to complete the circuit. The single-strand method is regarded as a non-workable with power lines in the vicinity.

Mr. Waldo says that the committee is anxious for every past patron or prospective patron to be on hand for the meeting.
