IN EXPLANATION

As service is all we have to sell, our plans for the future naturally turn to a program for improving our service. It is commonly known in all transportation circles that to give a territory good service there must be enough traffic to afford at least daily trips to the territory. Therefore, in the interest of good truck service we have consolidated operations with a view to improving service to all points in Northeast Nebraska from Norfolk, Sioux City, and Omaha.

IN SUPPLICATION

We firmly believe that prompt freight service is worth something to our customers in the betterment of their service to their customers, so we do not hesitate to ask support of our program of consolidation which we sincerely believe will be beneficial to commerce in Northeast Nebraska.

IN CONCLUSION

In return for this support we will earnestly endeavor to merit it and will not be satisfied with our companies until, from the standpoint of service, to our customers, we have one of the best truck operations in the State of Nebraska.
