

## -22 RECORDED DURING WEEK

Temp Varies 71 Degrees; City Water Pipes Freeze

O'Neill and Holt county residents this week bundled into their warmest winter clothing because the coldest seige of winter had struck. The sharpest drop in temperatures during the season came Saturday about noon. During the morning temperatures stood at a balmy, springlike 49 degrees. About 11 a. m. a cold front aided by strong winds moved in from the north, the mercury tumbled and in little over two hours the temperature was zero. Lowest temperature recorded that night was -12.

There was a variance of 71 degrees throughout the week. Lowest reading recorded was -22 on Thursday, January 27, and the highest was posted on Saturday morning at 49.

The cold reached the water pipe level in O'Neill on Tuesday. According to Mayor H. E. Coyne, the city received 12 calls for aid in thawing municipal water pipes leading to residences. One property owner was said to have 12 homes with frozen water systems. Coyne said the city pressed into action a special portable heat generating unit mounted on a truck to aid in relieving the situation. Heat from the unit is forced into the water main nearest the home where pipes are frozen. Late Wednesday Mayor Coyne said that two frozen water mains had been thawed out using this method.

Ten hundredths of an inch of snow fell during the week. This week's temperature reading, based on 24-hour periods ending at 8 a. m. daily, follows:

DATE	Hi	Lo	Precep.
January 26	-5	-22	.06
January 27	6	-22	
January 28	35	9	
January 29	49	-12
