Red Women Pilots
 Brilliant Fliers
 Some of Their Exploits Are Almost Unbelievable.

WASHINGTON.—According to the Leatherneck, a marine magazine, Russian women are doing "brilliant" work as combat fliers. There is one all-woman air regiment of night bomber pilots, the Leatherneck said. The magazine stated seven Russian women fighting pilots held the rating of ace, and that "some of the exploits of these girls are almost unbelievable."
 Vera Lotnako, 21, it was said, shot down her first Nazi plane a month before she had a baby, and her second two months after the infant was born.
 Another, Capt. Nina Russakova, 28, was reported to be the wife of Major Dikolayev, and the two were said to be thought the "first husband and wife fighter team to fly in combat."
 The night bomber group, the Leatherneck said, was commanded by Lt. Col. Evdokia Bershonskaya, 31, and even the ground crews in the units are all women. These fliers reputedly made 10,538 sorties against 800 Nazi objectives during a Russian offensive, with 136 girls winning decorations for valor under fire.
 The Leatherneck said that at the beginning of the war the Russians attempted to discourage women from combat flying, but that the girls wouldn't take "no" for an answer.
 "These Russian girls are no amazons," the magazine said. "Pictures show them to look like a group of American girls of the same age. Many of them are married to pilots flying on different fronts and some are fighting to avenge husbands who have been killed in air battles. But many of them are flying in combat because they refused to take a back seat when war came."

Army's Slot Machines Work Only With Slugs
 WASHINGTON.—The army now is going in for slot machines that work only with slugs.
 At the Pentagon building they have coffee shops all over the place for the 30,000 or so people in the war department's big building. These coffee shops have cigarette vending machines. The machines became increasingly popular when cigarettes got short. A special slug about the size of a nickel was devised. It has two long slots in it. The cigarette machines were then "fixed" so that they will work only with a bona fide dime and one of these slugs.
 The slugs are legitimate, however. They are sold over the coffee counters—and at these counters only—for five cents. You may buy only one at a time. At eight o'clock in the morning, they go on sale. It assures the buyer of at least one pack a day. At seven at night, they go on sale again for those who work the late tricks.

Plasma Needle Proves Its Worth, Saves Flier
 A B-29 BASE, SAIPAN.—When an explosive shell from a Jap fighter blew up in the lap of Sgt. Romeo Rendina of Detroit, over Nagoya, it provided the final test as to whether unskilled crew members could use a new type of needle for administering plasma.
 They could and did—and that's why Rendina is alive today. It was proof that the intrasternal needle method of administering plasma can be used successfully by airmen although their medical ward is the crowded radio room of a shell-punctured B-29.
 Medical men had believed that the intrasternal method could only be administered by a qualified doctor because a thrust with the needle in the wrong spot, or too deeply, might penetrate the heart or puncture a lung.

Hot Dog Hunger Cared for 485,000,000 Sent Over
 WASHINGTON, D. C.—Up to December 5, the war department has disclosed, the army transportation corps delivered 485,000,000 "hot dogs" to troops in France, the Lowlands and Germany.
 The frankfurters were included in 78,794 tons of perishable foods shipped to the front. Among other items were 487,000 turkeys, 2,500,000 chickens and 4,906 tons of butter.
 A miniature ice cream factory, capable of operating in a 120 degree temperature, has been developed by the army to supply ice cream to troops in the tropics. The machine weighs only 1,200 pounds and can be transported by truck or plane. It is equipped with a 2½ gallon freezer that produces ice cream in 7 to 14 minutes and with storage cabinets of 40 gallons capacity.

One Smith and Only One Jap; So Why Wake Him With the Marines
 WITH THE MARINES.—Cpl. Dean Smith of Wellsville, N. Y., was deep in a heavy sleep in a fox-hole when roused by a noise. He saw his buddy, Ray Smith of Whitesville, N. Y., get to his knees with a knife in his hand and a dead Jap at his feet.
 "Hey," Corporal Smith demanded, "why didn't you wake me up?"
 The other Smith shrugged. "Aw, there was only one Jap."
