**WOULD YOU BELIEVE IT! OF ALL OUR EXPENSES, ELECTRICITY - WHICH WE USE THE MOST - COSTS THE LEAST!**

**I READ THAT IT ACTUALLY COSTS LESS TODAY THAN EVER BEFORE!**

**Yes, Ladies... Are the Lowest In History—**

**Electric Rates In Nebraska**

STRANGE as it may seem, the cost of your electricity has continued to go down and down even during wartime when prices of most everything else increased. You can actually use two or three times as much electricity today for your electric dollar as a few years ago. State-wide group operation of Your Consumers Public Power District, which enables each community to participate in the benefits of mass production and distribution, along with efficient non-profit operation, has made possible the lowest electric rates in history for communities served by Consumers throughout Nebraska.

Low-cost state-wide electric power makes possible better living... greater opportunities for Nebraskans.
