A REPORT
 to You Who Are Waiting for TELEPHONES

Many persons are asking: "Can we now expect to have telephones installed soon?" Regrettably, we have to answer: "Just as soon as humanly possible . . . but it will be quite a while before everyone on the waiting list can get a telephone."

Those of you who have had your applications in for the longest period will, of course, be the first to get telephones, as instruments and facilities become available, and for some of you that may not be very long.

Telephone factories, which during the past several years have been producing almost exclusively for war, are being converted to meet the tremendous civilian telephone needs which have accumulated.

Gradually, and with increasing speed, new telephone service will be provided. Yet in spite of everything, the complete job will take time.

Switchboards, wire, cable, and telephone instruments will be produced as rapidly as possible. And installation work will be rushed to the limit. Much telephone equipment is complex and the task of manufacturing and installing it is time-consuming. Therefore, a considerable period will be required to serve all who are waiting.

We're mighty sorry that we cannot set any definite date for everyone's new telephone.

For your patience and understanding, our warmest thanks.

NORTHWESTERN BELL TELEPHONE COMPANY

September 3. The faculty is composed of the following instructors:

Can you "hold your own" in a discussion like this?

THEY'RE as American as "hot dogs"—these friendly get-togethers. But, to "hold your own" in one of these neighborhood discussions, you must be well informed on the affairs of your community. You need the facts.

Just assume that you are in one of these friendly confabs and the discussion swings to the many advantages provided for you and other Nebraskans by your Consumers Public Power District. Your friends would want these facts too.

1. There are no stockholders or "outside interests." Only the people of Nebraska own Consumers Public Power District—you and other Nebraskans.
2. You reap the benefits of Consumers operation. By law, all "profits" must go to you and other Nebraska electric users in the form of lower rates and better service.
3. Entirely self-supporting, your Consumers Public Power District is regarded as the outstanding public power organization in the nation. It was created under an act of the Nebraska Legislature to utilize the combined power facilities and water resources of the state for the greatest benefit of Nebraska and all Nebraskans.
4. A state-wide Nebraska enterprise, your Consumers Public Power District supplies ample, constantly dependable electricity for over 300 communities throughout the state.
5. You control the affairs of Consumers. You and other Nebraskans elect the Directors who formulate the policies and direct the affairs of Consumers. One Director is elected from each of seven election Districts throughout the state. Thus, your own representatives make sure that Consumers is operated for the greatest benefit and prosperity of you and all Nebraskans.

CONSIDER YOURSELF WELL-INFORMED IF YOU CAN ANSWER THESE QUESTIONS

1. Are you one of the owners of Consumers Public Power District?
2. Do you share in the "profits" of Consumers?
3. Why is Consumers regarded as "The Outstanding Public Power Organization in the United States?"
4. How many Nebraska communities are supplied with dependable electric power and service by Consumers?
5. Do you and other Nebraskans control Consumers?

CONSUMERS Serving Nebraska from Border to Border
