HOW TO CUT DOWN
BABY PIG LOSSES
 It is still the greatest tragedy of livestock production that we are losing millions of newborn farm animals every year, from PREVENTABLE causes.
 Here are some suggestions to help farmers reduce these losses:
 First rule is that healthy babies must come from healthy parents. Mothers which suffer from nutritional deficiencies while their young are yet unborn are a common cause. These deficiencies include lack of lime, phosphorus, vitamin A and iodine.
 "Brucellosis" (Bang's disease), kills thousands of calves and pigs before birth. This could be prevented by eliminating brucellosis-carriers from the herd.
 Another cause of losses is infection of the stump-tilp of the severed navel or umbilical cord by the germs of blood poison and lockjaw. These losses can be prevented by having animal babies born on clean, fresh bedding, and by disinfecting the navel cord.
 When newborn calves are deprived of the colostrum, or first milk from the cow, they may die from scours and pneumonia. The reason is a lack of life-giving vitamin A.
 When young pigs do not have access to sod or soil they often die from anemia (thin blood) because of lack of iron and copper.

NOTICE TO CREDITORS AND HEIRS
 County Court of Holt County, Nebraska. Estates of Esther Duncan, Deceased and Charles Duncan, Deceased.
 The State of Nebraska, to All Concerned: Notice is hereby given that Mabel M. Shobe has filed a petition alleging that Esther Duncan died March 9, 1906, intestate, resident of Holt County, Nebraska, seized of the East Half of the Southwest Quarter (E 1/2 SW 1/4) of Section 13, Township 29, North, Range 9, West of the 6th P. M., Holt County, Nebraska; that Charles Duncan died intestate March 10, 1923, a resident of Antelope County, Nebraska, seized of an undivided 2-27ths right, title and interest in and to the real estate above described.
 That petitioner is the present owner of said real estate, having derived title thereto by inheritance and direct conveyance from the remaining heirs of said deceased persons.
 The prayer of said petition is for a determination of the time of death of each of said deceased persons, and a determination of their heirs, degree of kinship, and right of descent of the real property, or interest in real property, of said deceased persons, and that there is no inheritance tax, state or federal, due from either of said estates or the heirs thereof.
 That said petition will be for hearing in this Court on March 21st, 1946, at 10 o'clock A. M.
LOUIS W. REIMER,
 County Judge.

HOW WAR BONDS GROW IN VALUE YEARLY

Yrs.	Increase in Value	Total Value	% of Worth the Yr. Before
1	\$ 5.00	\$ 755	.67%
2	10.00	765	1.32
3	15.00	780	1.93
4	20.00	800	2.56
5	20.00	820	2.50
6	20.00	840	2.44
7	40.00	880	4.76
8	40.00	920	4.55
9	40.00	960	4.35
10	40.00	1,000	4.17

IT'S SURPRISING—how War Bonds grow in value each year. If held until maturity they earn 3 3/4 per cent and they have a yearly added value. The chart tells its own story for a \$100 Series E Bond. The scale to the left shows how a \$1,000 Series E Bond grows. The chart shows that the increase in value is greatest in the later years of the bond's life. Note how the rate of interest goes up in the second three years of the bond's life. Study the increase in the \$1,000 bond. Holders of bonds the last few years, considering the above, would literally be throwing money away to cash them prior to maturity. The New York Stock Exchange in the more than 150 years of its existence has never recommended other bonds than those of the United States.
