HOLT COUNTY AAA NOTES Corn purchase program off to a good start. Substantial deliveries of corn are being received at local elevators under the Government corn Purchase Program. The U. S. Department of Agriculture is offering farmers a 30 cents a bushel bonus over ceiling prices for corn sold to the Commodity Credit Corporation. Corn purchased under the program will be used in three ways. Some will be exported as whole grain for human consumption. Some will be exported as processed meal and grits. And some will be supplied to domestic processors for the manufacture of essential products approved by USDA. None of the corn purchased will be used for feed. The bonus purchase offer will remain in effect until 50 million bushels have been obtained. Details on the operation of the program are available at the County Agricultural Conservation Offices.
