

HOLT'S BUDGET UP; LEVY DOWN

Hearing on Proposed New Budget to Be Here Wednesday

While the expenses for operating the Holt county government during the new fiscal year, July 1, 1946, to June 30, 1947, inclusive, will be increased over last year, the taxpayers in the county will see the new levy shaved slightly, according to the proposed budget being published this week in The Frontier by the board of supervisors.

Last year's levy, used in raising funds for all county purposes, was 3.22, while the new figure is 3.20. A hearing on the proposed budget will be held at the courthouse at 10 a. m. Wednesday, July 31, at which time objections to the proposal may be made.

County Treasurer J. Ed Hancock, who is serving his second year as the county's budget-making authority, points out that the county's healthy financial condition has enabled the officials to "scale-down" the levy despite the increase in operating costs. The estimate for the general fund calls for an expenditure of \$95,025 — \$11,000 above last year's figure. The increase is in line with hiked operating costs, chiefly in regard to the purchase of supplies and materials — the increases having been fixed by the 1945 state legislature, to become effective January 1, 1947.

Salaries Up Slightly Salaries of county officials, among the last to be increased among governmental employees, will be raised from \$16 to \$50 per month.

Approximately \$19,000 will be spent this year in the bridge fund, as compared with the \$18,500 bridge fund figure last year, an increase of \$500. The road fund costs are expected to be the same — \$75,700.

The county's reserves include \$275,000 in government bonds, drawing interest. There are no registered warrants against the county, and there have not been for a number of years.

Four-tenths of a mill were shaved-off the levy for the courthouse bonds, which cannot be retired until maturity. The officials point out, however, that with the \$18,533.87 cash in the courthouse fund, the county will be enabled to pay off its indebtedness with collections this year and collections to be made from the new levy of .30.

No levies have been made this year in the road dragging, county relief and unemployed, soldiers and sailors', mothers' pension, tax sale foreclosure, and inheritance tax funds because of ample cash reserves. The supervisors plan to have all window frames in the courthouse painted and puttied, which accounts for some of the increase in general expenses.

The new county levy will not be adopted until early August, after the new state levy has been fixed.

2 AUTOS STOLEN; BOTH RECOVERED

Don Enright's Vehicle Is 2d to Be Stolen from Church Parking

Two automobiles were stolen this week by thieves who abandoned the vehicles within a few hours after the thefts.

A 1940 Plymouth coupe was stolen from in front of St. Patrick's Catholic church here at about 10 a. m. Sunday, it was reported to police authorities by Don Enright. The vehicle was recovered at 10:30 a. m. the following day at a point one mile south of the Spencer dam. After having run out of gas, it was presumed that the vehicle was abandoned. Enright said it had been slightly damaged.

A 1940 Chevrolet belonging to George Dickerson, of Butte, was stolen late Tuesday near the Spencer dam, and it was found near the Northwestern railroad station here at 2 a. m. Wednesday, when it was picked up by Police Chief Chet Calkins.

Enright's was the second vehicle to have been stolen from the streets of O'Neill this month. M. J. Golden's 1939 Ford disappeared from its parking place in front of St. Patrick's church on July 5, and was recovered two days later in South Sioux City, undamaged.

Authorities believe that the Enright and Dickerson thefts might have been perpetrated by the same individual or individuals.

On all three occasions, the ignition keys had been left in the cars, according to County Sheriff A. B. Hubbard.

DUSTIN GROUP AT HEARING

Urges New County Road At Mouth of Big Sandy Creek

More than 40 Dustin township landowners and residents gathered at the Holt county courthouse Wednesday afternoon to hear an appraisal committee's report on damages to real estate in the proposed relocation of a county highway at a point 22 miles north and three miles east of Atkinson. The appraisers, however, disappointed the delegation, and did not return a report to the board of supervisors.

The supervisors recently ordered condemnation proceedings begun against 7.11 acres of land belonging to Thomas O'Connell, of Atkinson, to enable the construction of a new county highway on higher ground where the Big Sandy creek flows into the Niobrara river. The original road has been unserviceable because it has been flooded.

County Sheriff A. B. Hubbard appointed Leroy Richards and Frank Brady, both of Atkinson, and R. H. Parker, of O'Neill, as a three-man appraisal committee. Their job was to recommend a fair settlement for damages to Mr. O'Connell's real estate.

Meanwhile, Mr. O'Connell has declined to fix a price thus far of his property that would be damaged under the proposed plan, and the board has been obliged to proceed with the condemnation plan.

J. C. Stein, who is the first district supervisor, and Jess Hupp of the Dustin delegation, spoke in behalf of the proposed new route, and urged the board to continue with the condemnation proceedings.

The hearing, begun in the supervisors' chamber, was transferred to the assembly room because of the size of the crowd.
