"Do Right!" —that's Self-Regulation

Beer industry self-regulation is neither involved nor complicated. It means "Do Right!" This simple statement sums up the way Nebraska beer retailers must conduct their establishments to maintain public good will.

It's the task of the Nebraska Committee to help see that the precept "Do Right!" is carefully observed. Meetings, bulletins and other educational activities help the beer retailer understand what's expected of him, and why. Specific suggestions are often given individual retailers.

Help and guidance given retailers saves the necessity of action by legal authorities in a great many cases, which benefits both the retailer and the general public.
