FLOOD EVACUATION IN MIAMI

Floods that came in the wake of the latest hurricane to scourge Florida forced the evacuation of these persons from their homes at Miami. A life raft, rowboat and a makeshift raft were used to get them to higher ground. This was part of the disastrous aftermath of the second vicious hurricane to grind across Florida within a month. Crop damage throughout the state was in the millions of dollars.

PRAIRIELAND TALK

(Continued from page 2.)

The cold-blooded scientists, toying with the mysterious forces lurking within inanimate matter, find that a single dewdrop flashing the early morning sunbeam from grass blade, holds within itself atomic energy sufficient to hoist a million tons to the top of a six-mile high mountain. French scientists in 1870, then on the trail of the atom, made the weird forecast that within 100 years the hidden forces sustaining created worlds would be within reach of man, and then from out the vast unknown would appear a majestic Being bearing a bunch of keys and announce, "It is closing time, gentlemen!"

In A.D. 96, John, on a speck washed by the waters of the Aegaeum and known as Patmos, said he saw "an angel come down from heaven having the key of the bottomless pit and a great chain in his hand."

Farmers from the editorial sanctuaries and radio high towers from Iowa, Kansas, Dakotas, together with a few local swivel chair clod-hoppers, were the guests of the state agricultural college the other day, were shown the laboratories, nutrition center and other attractions, not the least affair of interest being the noon lunch. While one gent from a broadcasting outfit from Washington, D. C., graced the gathering with his presence, Sam McKelvie was not listed among the guests—probably too busy with practical problems of beef production out on By-the-Way.

Two or three Nebraska towns have wrapped themselves in the mantle of self-sufficiency and withdrawn into the shell of local bigotry. If a gent comes to town to sell a book or a paper or a new brand of baking powder he finds all doors closed to him unless he has a card that the local bigwigs who rule the roost have issued. These hibernated patriots with a false

THIS IS GOING TOO FAR

All right, so the revolution is upon us; the long skirt is here to stay and no one can do anything about it. But when fashion designers carry their insidious plot to the extent of enmeshing innocent children in their toils—that's just too much. The dread secret came out at the American Toy institute shown in New York: Even dolls are wearing wasp-waisted, long-skirted outfits now.

OBJECT LESSON FOR UN

Getting along like cats and dogs has an entirely different meaning in the Celabrese household in Nutley, N. J., and ample proof is displayed here as dachshund Frederick Gotha Von Boris (call me Fritz) un-

PAGE LOCALS

Mr. and Mrs. Clifford Shane, of Lincoln, spent the weekend with her parents, Mr. and Mrs. Gaylord Albright and family. Miss Inez Albright accompanied them home Monday morning for a short visit.

The first degree work was put on at the regular meeting of the IOOF Monday evening for following candidates: R. V. Crumly, William Sorenson, William Simmons, Warren Cronk, Elmer Clasey and James Sorenson.

Mrs. Allen Haynes Saturday afternoon with nine members present. Mrs. George Rost was a guest. Mrs. Haynes received gifts at her birthday shower. The club voted to send two dollars to the Mother Jewell home at York.

Mrs. C. A. Townsend returned home Sunday from Denver, Colo., where she has spent some time visiting her sister, Mrs. Kate Price.

Mr. and Mrs. Frank Snyder, George Fink, and son, Ross, and Mrs. Alma Marke drove to Grand Island Saturday morning

sense of town loyalty are missing chances to learn that there are things worth while in this great country not originating in their unfortunate community.

The theory promulgated by the gent with shaggy white hair that appears never to have been combed, wrinkled face and kindly eyes, known among mathematical masters as relativity, may mean not a thing to you and me, but it has been since that notion captivated the highbrows of science that the world has gone completely mad.

The assessed value of farm equipment, including tractors, reported to Nebraska assessors last April totals \$77,479,708, an increase of something like 15 million dollars over the previous year. The increase is not so much accounted for from new equipment but from the general boosting of valuations.

Youngsters are to have square dancing lessons at Lincoln high. It is to be hoped they also gather lessons that prepare them for "square shooting" in after life.

Three Tab—Asphalt SHINGLES

• Heavier than Government specifications require
• 220¢ per sq. for added protection—longer wear
• Colorful blends of Green, Red or Blue

You beautify as you save and protect. That old worn out roofing costs you money... in heat loss, damage to insulation and ruined plaster. 12"x36" three tab strips that defy wind, rain, heat and ice. Made tougher to last longer.
