### ORDER YOUR BABY CHICKS NOW!

Under present conditions it is rather hard to establish a price on chicks to be delivered several months from now. We think this price is plenty low and apt to be higher later. If you book your order now and make a deposit you will be protected against any price increase. If conditions arise whereby we can sell chicks for less you will be given advantage of the lower price.

• Our day-old pullets are sexed by an expert sexer, with 90 percent accuracy guaranteed. We agree to refund in cash, for all over 10 percent males included, the difference in price of pullets and unsexed chicks. (Claims for inaccuracy must reach us not later than 60 days after chicks are sexed.)

• We make no guarantee on cockerels and all cockerels orders are subject to sale of pullets.

#### AAA GRADE

These chicks are hatched from highly selected flocks that have been bred for size, vigor, and production. This grade has established our reputation for quality chicks. They carry a goodly percentage of pedigree bloodlines and have proven to be very profitable.

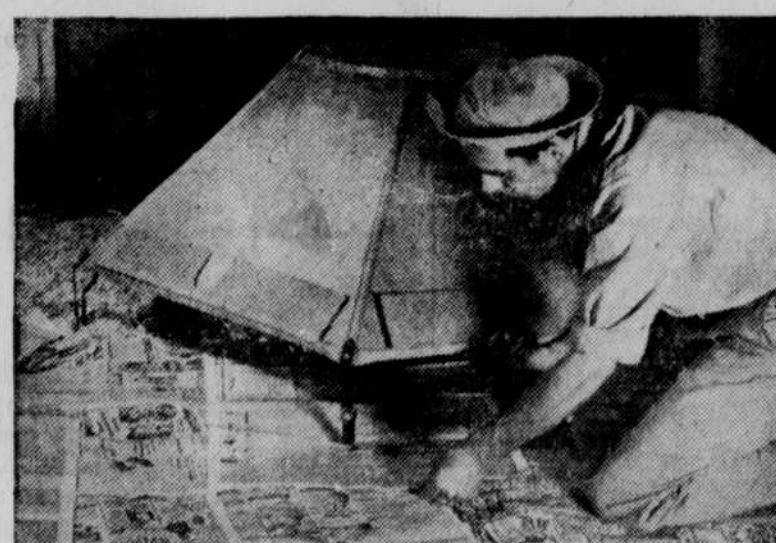

#### SPECIAL MATING

These are the finest chicks we produce. The flocks for these matings are headed by males from pedigreed and R. O. P. bloodlines, from some of the outstanding strains in this country. They are extra quality chicks from which you can expect extra fine results. They are the cheapest chicks in the long run, because of their high egg-laying ability.
