**TO RED CROSS BRANCHES, HOLT COUNTY CHAPTER**

The Holt County Chapter American Red Cross is just entering another year of Red Cross activities with practically an exhausted treasury. The small amount of money obtained by the annual Red Cross drive is hardly sufficient to accomplish much in the way of charity. However, there are many ways in which the Red Cross activities may be directed to aid the poor, needy and others suffering from drought and grasshopper blight and the depression generally.

I believe it to be vital to Red Cross activities this year that we proceed with a program of collection of second hand garments and foodstuffs donated by charitably inclined people of the county and have these items on hand to assist in meeting the demand for aid during the coming winter. The solicitation of these things should commence soon so that proper preparation can be made for cleansing and repairing of the clothing and the preservation of perishable foods before frost.

Every effort should be made to enroll every adult member of the Red Cross during the annual drive in November. With the assistance and co-operation of those financially able to do so Holt county this coming winter will be able to take care of its own and not require outside assistance, and the Red Cross members of this county should direct their efforts

**MELLOR MOTOR CO. GET INTERESTING LETTER**

The following letter was received by the Mellor Motor Company a short time ago from Calvin McKim, at Bryan, Texas. The letter was unsolicited and is appreciated very much by the company.

College Station, Texas,  
August 18, 1931

Mellor Motor Company,  
O'Neill, Nebraska,  
My Dear Mr. Mellor:

I had a fine trip down. I picked a time when the elements were sure at their best for traveling.

I wish to say this for the Ford Victoria—that it was what made the trip the most pleasant 1200 miles I have ever ridden in any kind of transportation vehicle. We averaged 22 1/2 miles per gallon of gasoline in spite of the car being new and tight, having four inside and a fifteen hundred pound trailer to tow behind. Everything you said about the riding qualities is true, plus. I do not have words to express my complete amazement at the comfort of driving this particular model.

I understand that the windshield will be replaced gratis if cracked within thirty days of purchase. Well, mine is cracked. I discovered it upon my arrival at College Station, August 13th. I had a note made of the right rear shock absorber leaking at the 1,000 mile grease and check job at Topeka, Kansas, and again at the 1500 mile check and grease job at Bryan.

From the standpoint of crops agriculture is thriving from the Kansas border southward. Oklahoma and Texas seem to have the best crops they have ever had. However, with cotton going down in price to a predicted low of five cents, per pound, they are but little better off financially than if the crops were poorer.

Thanking you for past favors and those of the future, I beg to remain,  
Very truly yours,  
V. CALVON McKIM

**NOTICE**

The City Ordinance provides that when a fire alarm is sounded every driver of an automobile must drive his car to the curb and keep it there until the fire apparatus passes. Automobile drivers have paid no attention to this and several times accidents have been narrowly averted. Hereafter this ordinance will be strictly enforced and this means a fine of \$2 and costs for every driver convicted. The truck has been delayed several times on account of cars driving to the pump station while the alarm is being sounded, or being pulled into the street while the truck is in motion. If you are not a fireman, a few minutes delay won't make any difference and by waiting you may be about \$4.65 ahead.
