ADVERTISING RATES:

Display advertising on Pages 4, 5 and 8 are charged for on a basis of 25 cents an inch (one column wide) per week; on Page 1 the charge is 40 cents an inch per week. Local advertisements, 10 cents per line first insertion, subsequent insertions 5 cents per line.

Every subscription is regarded as an open account. The names of subscribers will be instantly removed from our mailing list at expiration of time paid for, if publisher shall be notified; otherwise the subscription remains in force at the designated subscription price. Every subscriber must understand that these conditions are made a part of the contract between publisher and subscriber.

Two minutes after the burglar alarm in a bank at Lincoln was accidentally set off at 2:45 p. m. last Friday, eight police officers in three cars, two of them equipped for such work and capable of high speed, were at the bank. Lincoln police officers remember the greatest bank robbery in the history of the country, that was pulled off in that city nearly two years ago and are evidently prepared for the next bunch of "easy money" boys that visit their financial institutions.

The death of Frank Reavis, of Lincoln, last week, removes from the republican party in this state one of its outstanding members. For many years he represented his state in the National Congress and was recognized as one of its most prominent members. He had the distinction of being the only member of Congress from this state that ever resigned to enter private business. After his resignation he returned to Lincoln to enter the private practice of law, in which he was unusually successful. It was our good fortune to have a personal acquaintance with Frank Reavis for over a quarter of a century and we mourn the passing of one of Nebraska's ablest sons and a warm personal friend.

Speaker Garner may not get very far with his bill carrying \$2,100,000,000 for direct farm relief, expanded reconstruction loans and providing federal buildings for hundreds of cities and towns in all parts of the country, but his promise of the federal buildings to so many cities will have a tendency to line up many of the members of the house for the bill, as they will want their constituents to have their hands in the pork barrel, if pork barrel there is to be. A bond issue would provide the money.

Following are the Nebraska cities and towns that would have their federal buildings enlarged and new ones built:

Kearney postoffice (additional land only) \$10,000; Lexington postoffice \$75,000; Superior postoffice \$75,000; Wayne postoffice \$75,000; Omaha court house \$60,000; in all \$370,000.

The bill would allot \$90,000,000 in supplemental funds to be spent on projects including the David City postoffice, Grand Island Postoffice, Omaha federal office building, and Sidney postoffice.

Allotments under the head of "public building projects costing approximately \$100,000 apiece" would include Clay Center.

Projects approximating \$70,000 apiece would include Ainsworth, Albion, Alma, Auburn, Bridgeport, Cozad, Crawford, Fullerton, Geneva, Gering, Gordon, Gothenburg, Hartington, Hebron, Kimball, Loup City, Madison, Minden, Mitchell, Neligh, Ogallala, O'Neill, Ord, Pawnee City, Ravenna, Red Cloud, Saint Paul, Schuyler, Tecumseh, Tekamah, Valentine and West Point.

The \$85,000 projects would include: Ashland, Atkinson, Bayard, Beaver City, Benkelman, Bloomfield, Cambridge, Chappell, Creighton, Exeter, Frank, Friend, Humboldt, Newman Grove, Oakland, Orleans, Osceola, Oxford, Penetr, Plainview, Randolph, Rushville, Stanton, Sutton, Wilber, Wisner and Wymore.

Methodist Church Notes

Benj. Kuhler, Pastor

All regular services next Sunday morning Sunday School 10:00 A. M. Help defeat Depression by teaching the children faith in God, which will inspire faith in one another and restore confidence. It is going to require a great religious awakening in the world to cure us of our ills. Men have been asleep while the enemy have been sowing tares.

Preaching hour 11:00 A. M. "Will the Church Restore Faith in God and His Word?", as it has done in the past in many instances.

The evening service will be in the hands of the young folks again. They are preparing a religious drama which has for its purpose the awakening of certain types of character. It is not only thought provoking about certain religious duties, but interesting.

EDUCATIONAL NOTES

The Annual School Meeting will be held in each district in the County on Monday, June 13th. The meetings must be held on this date but at any time of the day or evening, time to be posted on notices.

Any citizen who has lived in the school district 40 days, male or female, or whose husband or wife, who has real or personal property assessed in his or her name at the last Annual Assessment, or who has children of school age, may vote at the Annual Meeting.

Transferred persons may vote on all questions, excepting bond levy, but may not hold office.

All three members of the board may vote.

The District Census shall be taken within 10 days of the meeting. Names of all children should be listed. Failure to list one child from 5 to 21 years of age means the loss of about \$2.00 to the district in Apportionment. All pupils transferred to the district should be listed on the census.

Vote on changing school site can only be taken at the regular Annual Meeting. It requires only a majority to move it nearer to the center of the district but a 2-3 majority to move it from the center.

The State Teachers' Examinations will be held in O'Neill only, on Saturday, June 4th.

Most of the schools of the County have closed for the summer vacation.

Elsie Peter, Grace Pribil and Marie Antoinette Stewart, Seventh grade students of District No. 181 have earned the Final Certificates in Penmanship. Rose Marie Stewart, a Sixth grader received her improvement Certificate and Ruth Pribil, a 4th grader, a 25 Drill Button. Miss Madeline Ulom was their teacher.

By error, the name of Rose Bowers was omitted from the list of Eighth Grade Graduates. Rose was a pupil of District No. 34. Miss Irene Peter was her teacher.

Some of the things we learned from the last Eighth Grade Examination papers:

to determine what can be done to aid the child physically. Physicians, surgeons and nurses, by the contribution of their services, have made these clinics possible.

The need for this work was shown after a state-wide survey revealed the fact that there are approximately five thousand person under twenty-one years of age in Nebraska who have some type of physical handicap. Many of these children can be greatly improved if not entirely corrected, by modern medical and surgical attention, braces or appliances.

Many crippled children have received, or are now receiving, adequate and competent care, but there are many children who have had competent care who are now lapsing to their former crippled condition through failure on the part of the parents to carefully follow out the recommendations of the physician or surgeon in charge of the case. This is due, in part, to the fact that the child had improved to such an extent that they think it no longer necessary to follow the instructions given by the doctor.

Crippled children will become crippled adults if all possible correction is not made while they are young. Many of them will be confronted with the necessity of fighting their own way through life, handicapped both physically and educationally, in competition with able bodied persons who have had every educational advantage. The crippled child does not want sympathy and a sheltered existence; it not only desires, but is entitled to, an even break with its more fortunate brother or sister. Through clinics of this kind, the parents of crippled children have been aided in preparing a definite program of physical restoration and education for their crippled child which will enable them to become useful and independent citizens.

Parents or others desiring to bring handicapped children in to the clinic, are requested to write to A. H. Mann, field representative for the Department of Vocational Education and the Elks Committee, in care of the Hotel Norfolk, Norfolk, Nebraska, so that adequate preparation can be made to care for them without delay.

Oil governs the useful life of every motor

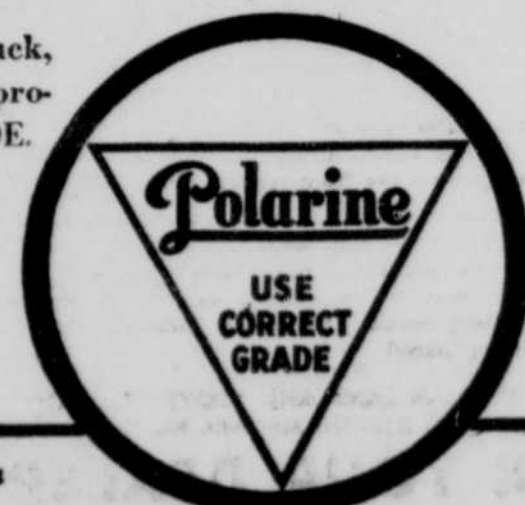

Four, six, eight or sixteen cylinders—the useful life and performance—the annual repair bill and gasoline cost per mile are governed by the kind of lubrication the motor receives.

Unless high quality oil of correct grade is used, friction constantly gnaws at the motor's vitals—gradually lowers its performance and value.

The grade of thoroughly dewaxed new Polarine, recommended on the Polarine Chart, is best by test for each make and model of truck, tractor and passenger car listed.

Use the correct grade of new Polarine. Give your truck, tractor or passenger car motor the finest lubrication and protection oil can give. 25¢ A QUART FOR EVERY GRADE.
