## A NEW, LIBERAL CROP PRICE GUARANTY

announced by INTERNATIONAL HARVESTER

Seventy cents a bushel for No. 2 hard wheat, Chicago delivery, 45 cents a bushel for No. 2 yellow corn, Chicago and 8½ cents a pound for middling cotton, New Orleans—these are the basic figures of International Harvester's new Crop Price Guaranty offer to farmers.

The plan has been enlarged over the 1932 plan so as to cover all International Harvester farm machines except repair parts and motor trucks.

In announcing the new 1933 Plan International Harvester says: "We believe that present crop prices will show a gradual improvement, and we also believe that if the farmer is assured a fair price for his 1933 crops, he will purchase the implements which he needs. We have decided, therefore, to give American agriculture again, as we did in 1932, the assurance of purchases of equipment from us in so far as 1933 payments therefor are concerned."

Come in and let us explain the details of the 1933 Crop Price Guaranty.
