### WHAT ABOUT A FAIR?

Dear Readers: I want to tell you something about the fair and fairs. Do you know that the fair is the oldest place of amusement for mankind on the books?

The fair originated in Rome 400 years B. C. It was the sport of kings, queens and all great rulers. Annually the great rulers of the Roman empire called a fair or fete days, where the young men of the whole empire would congregate to show their skill and prowess as swordsmen, throwing the

spear, boxing, racing and wrestling.

So you see the fair is not a new thing. The fact is, the Holt county fair was organized July 10, 1884, with Patrick Fahey as president and H. M. Utley as secretary and general manager. And this fair has met yearly ever since, except 1913 and 1932. The reason there was no fair in 1913 is, the new law took effect January first, 1913 authorizing the board of supervisors to make a levy for agricultural and fair purposes. This law had to go to the supreme court of Nebraska and before the case could come to trial it was too late for a fair. No fair in 1932! Too dry! Too hard-up. The \$2,000.00 that was appropriated, was returned to the general fund according to law.

The thirty-eight acres of ground on which the fair ground is located belongs to the Holt county agricultural society and must be used for such purposes. Otherwise, it goes back to the original owners or their heirs. Should we fail to have an agricultural or fair meeting of three days duration in 1933, we lose our right for the future. The fair grounds cannot be mortgaged.

Now, you say we can not have a fair because it costs too much money. Do you know how much it costs? I am sure you don't. There are over 9,860 quarter sections in land in Holt county, according to the survey. At 22 cents per quarter, we would receive \$2,169.20. This does not include the towns or incorporated villages in the county. If each lot, block and parcel of land in Holt county was taxed at 8 cents apiece, that would more than pay the \$2,000.00 that the supervisors appropriate annually.

The fair is the mirror, or looking glass of your county. It is an incentive to the boys and girls of the county and of the state to do their best to produce better things of all kinds. The boys and girls of today are the voters of tomorrow.

Look at the boys and girls 4-H Club work. Look at the school childrens exhibits and you will note the progress, and the fairs and exhibitions are cause of it.

Don't think because you have seen the world and all the big things that the boys and girls of today do not want to see a fair.

Iowa with her ninety-six counties has from one to two fairs in every county in the state, and has restricted the number of 4-H Club boys and girls to exhibit at the fairs to first and second prize winners.

In our eighty-two county and district fairs to hold meetings in Nebraska, as reported by Perry Reed, secretary of the Nebraska state fair, Lincoln, Nebraska, as reported July 15, 1933, eighty hold fairs this year.

So you see there is every reason why we should have a fair this year.

In keeping with economic conditions of Holt county, the management has lowered the price to 25 cents a day, where they had charged 50 cents. Also a season ticket for 50 cents. Automobiles will be admitted free. Exhibitors are required to buy a season ticket.

We feel that this is "your" fair and you should get behind it, push it, help it along.

If you like this article, comment the writer, if you don't, like it, cuss the editor.
