

**Nebraska News Items**

Specimens of fish, called amblystoma, were pumped up with gravel from a pit north of Meadow Grove recently. This fish commonly is found in tropical parts of America and rarely in the northern parts. Parts of the fish were squeezed off in passing thru the gravel pump. They are about six inches long. They have four legs and three limber horns projecting from the sides of their heads.

The fish found near Meadow Grove are believed to be in the larvae stage of development, yet often in the larvae stage this fish is larger than it is when it reaches full development. Specimens commonly are found in Mexico up to 12 inches long. The fish are on display in the office of Dr. Larson at Meadow Grove.

Paul F. Good, Nebraska Attorney

General, discussed enforcement of Nebraska's constitutional dry law with federal prohibition officials, Good indicating he believes adequate enforcement here will tend to enhance prospect of repeal. "If ye can demonstrate our ability to handle the liquor problem satisfactorily there is likely to be less opposition to our repeal of our constitutional prohibition," Good said.

Over in Cedar county the county commissioners are planning on using native timber in construction of a bridge. The county purchased 20 acres of timber from Albert Jones, of Wynot. Unemployed are to receive most of the wood but two carloads of oak piling have been sawed and an order for about 5,000 feet of planking has been let and is being sawed at the sawing mill near St. Helena. Alfred Anderson, Cedar county commissioner, placed the order.

Neighbors flocked to the farm of Mario Marshall to help kill rattlesnakes. When it was discovered, the place, which is near Eddyville, was infested with the reptiles seeking a place to "ballup" for the winter. One report stated 60 and another that 100 had been killed after a two day battle.

starting at 1:00 p. m.

Bring in your cattle, Hogs, Horses, Sheep, or anything you have to sell.

We have sales every two weeks.

Prices Have Been Satisfactory Service Charge Low

JAMES MOORE, Mgr.

"This is GAS AND OIL MONEY —BELIEVE IT OR NOT!"

Sally: "Really? Tell me about it, Helen." Helen: "Well, as I use the car most of the time these days and actually buy the oil and gas, Dick thought it a good plan to turn the car budget over to me entirely." Sally: "How does that give you extra money?" Helen: "I have more time than Dick and have learned some surprising things about the cost of car operation. Dick thought all gas and oil sold at approximately the same price were of equal value. When the motor broke down, he considered it just hard luck and paid the repair bill." Sally: "Isn't it?" Helen: "No! It is poor motor protection. More than half the entire motor wear occurs during the few minutes of starting when the motor is cold. Only one brand of oil—Conoco Germ Processed Motor Oil—penetrates the metal so that a portion of it, nearly a quart, stays up in your motor, greatly reducing the wear. So checking back on

repair bills that were paid before I changed to Conoco, we've saved a lot of money this last year." Sally: "What about gasoline?" Helen: "To me that choice depended on quick starting—Dick used to choke the car until he was wild. It wasted so much gasoline in cold weather—ran the battery down and the nerves, too. With Conoco Bronze, the motor starts at the first turn and has power galore—goes further on each gallon and is anti-knock also. So you see how I did it?" Sally: "I certainly do, Helen—and I think you're a very clever girl!"

**CONOCO**  
at the sign of the Red Triangle

Full motor protection, especially in cold motor starting, can be found only in Conoco Germ Processed (Paraffin Base) Motor Oil because of the penetrative oiliness, called "The Hidden Quart" stays up in your motor and never drains away.

Instant Starting and Lightning Pick-up can best be obtained with Conoco Bronze Gasoline, and without sacrifice of Long Mileage, Greater Power and Anti-Knock advantages. For cold weather starting it cannot be excelled.

When planning a trip for business or vacation, write the Conoco Travel Bureau, Denver, Colo., America's largest Free Travel Bureau.

Men! In the Face of a Rising Market We Feature a Special Purchase of

**Suits AND Over-Coats**

\$16<sup>50</sup>

\$16<sup>50</sup>

You could pay much more for your suit, but it would be hard to find better quality or better styles than these. The fabrics are new and sturdy and will wear several seasons and still hold their original shape. A real buy for the man who must look his best at all times!

We aimed at an overcoat value that would top all our previous efforts. Buying early before woolen prices soared helped us "turn the trick." If you're thinking of a new overcoat for Winter see these first—you won't be disappointed. Fabrics and styles for every man.
