NEBRASKA NEWS OF STATE AFFAIRS

By James R. Lowell

Governor-elect Cochran has some ideas of his own as regards the approaching legislature. For example, he believes that the most important proposition up before the law-making body is that of providing state funds for relief. Nebraska is one of five states that to date has failed to provide funds for relief as a state and federal officials are pre-

paring to put the question fairly up before the legislators.

Since federal relief was first administered in Nebraska, approximately \$14,000,000 or about 90 per cent of the relief funds expended in the state have come from the FERA. This includes the CWA, emergency education, student aid and rural rehabilitation. The counties (79 of them who are participating in the federal relief program) have been putting up about one third of their income for unemployment relief, but there is room for several millions of dollars to be thrown in for relief purposes from the state government.

The prime motive of the relief organization in recent months has been to put more relief people on work projects, altho it costs more to provide work relief than it does a straight dole. Work relief totals reached their highest point last week since the CWA activities last

March, both as to number of persons employed on projects and total wages allowed. The payroll for the week carried 18,940 names and amounted to \$143,979 with an additional \$13,104 spent for team hire. Relief officials figure that the higher cost of work relief is justified because this method upholds the morale of the people needing assistance, as well as leaving beneficial results behind in the way of permanent improvements accomplished.

Mrs. R. R. Morrison returned Tuesday night from Rochester, Minn., where her daughter, Mrs. Davidson was operated on last

week. The operation was successful and Mrs. Davidson is getting along nicely and is expected to leave there the first of the week.

STANDARD RED CROWN SUPERFUEL

Plus TETRAETHYL

Costs no more than "regular" gasoline!

The discovery that gasoline selling at the price of Standard Red-Crown often does not contain a single drop of tetraethyl is making thousands of motorists "look for the plaque on the pump." If it's there, they know they are getting full value—a gasoline containing the very same valuable fluid which (in larger quantity) goes

into premium-priced motor fuel. But if the tetraethyl plaque is missing, they drive on till they find it. Mostly, they drive straight to the familiar Standard sign. For that plaque is on every Standard Red Crown pump—further proof of more Live Power per gallon at the price of "regular" gasoline!

COUNTRY COUSIN LAUGHS LAST

YOU DON'T CALL THAT THING AN AUTOMOBILE, DO YOU? WILL IT RUN AT ALL?

IT'LL RUN SOME, FRED. S'POSE WE DRIVE INTO TOWN AND FILL UP THE TANK AND THEN HAVE A RACE ALONG THE HIGHWAY.

DON'T MAKE ME LAUGH.

HEY! BETTER NOT FILL HER UP THERE. THERE ISN'T ANY TETRAETHYL COMPOUND IN THAT GAS. IT WON'T BE A FAIR RACE. YOU'LL BE SURE TO LOSE.

OH, YEAH? I'LL RISK IT. ALL THESE "REGULAR" GASOLINES ARE THE SAME, ANYWAY.

Y'SEE, I ALWAYS GET STANDARD RED CROWN SUPERFUEL. IT DOESN'T COST ANY MORE THAN "REGULAR", YET IT'S GOT LIVE POWER. AND THAT PLAQUE TELLS ME IT CONTAINS TETRAETHYL COMPOUND, THE FINEST ANTI-KNOCK FLUID THERE IS!

I CERTAINLY GET A BIG KICK OUT OF YOU COUNTRY BOYS. COME ON. LET'S GET GOING.

HEY!

THIS OUGHT TO SHOW HIM COUNTRY FOLKS AREN'T SO DUMB! I MAYBE W'LL LOOK FOR THAT PLAQUE ON THE PUMP NEXT TIME.

SAY! I GUESS THERE'S SOMETHING IN WHAT YOU SAY AFTER ALL. BELIEVE ME, I'M GOING TO GET THAT LIVE POWER GASOLINE FROM NOW ON!

I THOUGHT YOU'D CHANGE YOUR MIND. AND JUST WAIT TILL YOU SEE HOW MUCH YOU SAVE ON MILEAGE WITH STANDARD RED CROWN, TOO!

LOOK for the PLAQUE on the PUMP

If this plaque is on the pump, you know you are getting gasoline containing TETRAETHYL, the finest anti-knock fluid known.

DON'T KID YOURSELF! IF THERE'S TETRAETHYL IN THE GASOLINE YOU BUY, IT WILL SAY SO PLAINLY ON THE PUMP!

HERE'S WHERE TO GET IT!
