March 27, 1935, 9:00 a. m.
Holt County Board of Supervisors met as per adjournment. All members present. Meeting called to order by Chairman. Minutes of previous meeting were read and on motion were approved as read.

RESOLUTION
WHEREAS, there has been introduced in the Legislature of Nebraska an act to provide that all interest and penalties on delinquent taxes shall be waived provided such taxes are paid within a limited time, and
WHEREAS, if such an act becomes a law it will mean that in the future very few taxes will be paid, because the persons liable will feel that some future legislature will waive any penalty for non-payment, and
WHEREAS, if such an act becomes a law it will practically bankrupt all municipalities that must rely on the collection of taxes to operate, and
WHEREAS, in case such an act becomes a law it will be almost impossible for counties, cities, villages and schools to operate, and will render them unable to finance their activities, and
WHEREAS, the enactment of such a law will make it an object to people not to pay their proper share of taxes necessary to carry on the functions of government,
THEREFORE, be it resolved by the County Board of Supervisors of Holt county, Nebraska, that we request our representatives to vote against this vicious legislation
And be it further resolved that a copy of this resolution be forwarded to our Representative and Senator, and also a copy forwarded to the Governor of the State.

John Sullivan,
Ed. J. Matousek,
John A. Carson,
Ezra W. Cooke,
John Steinhauser,
J. C. Stein.

CONGRESS—AS SEEN BY A NEBRASKAN
Relief for Schools—A very important amendment to the relief bill is the provision allocating \$300,000,000 for "assistance for educational, professional and clerical persons." The President's spokesman was asked if this money would provide any funds for the more than five million children in the 2,000 public schools which have already closed for lack of funds, but the reply was made that in the opinion of the committee these funds are entirely in the hands of the President and that perhaps the money would be used to pay school teachers, rather than keep schools open. It was not explained who the educational persons would be who would receive the \$300,000,000, so the Education Committee members are asking many pertinent questions and wondering if the President will use some of this \$300,000,000 to keep the little red school house open, and if the money for educational purposes will be allocated by the relief organization or by competent persons in the

PROTIVINSKY GROCERY

office of the Director of Education. Because of the efficiency of the educational organizations already set up, many congressmen believe that the money should be spent for educational purposes by those familiar with our educational institutions.

Hog Sticker—Harry Hopkins is back from Florida. Thursday night he was introduced to the Iowa State Meeting as the champion hog-sticker of the world. He was also introduced as a native of Iowa, Hopkins in his speech said that he was also a native of Hastings, Nebraska, and that he was not the champion hog-sticker, but he did call attention to the fact that he has a very big job and that job is to help spend approximately five billion dollars. Reference is made to Harry Hopkins, because the House passed House Joint Resolution 117, which is the conference report over which the conferees from the Senate and House have been working several days, and which means that in a few days the President will get the huge sum of approximately five billion dollars for the fight against the depression.

Processing Taxes—Some of the congressmen, discussing the George amendment in the big emergency relief appropriation bill, which has to do with processing taxes, declare now that there must have been some reason why it stayed in the bill—whether Mr. Wallace, Secretary of Agriculture wanted it to remain in the bill or not, nobody knows. Those of legal mind, however, declare that it is inoperative, but if it is inoperative, why was it allowed to remain in the bill? Fairly reliable information traced to the Chairman of the Committee on Agriculture indicates that the question of hog processing taxes is entirely up to Mr. Wallace; that he has in mind the cutting down of the amount of the hog-processing tax a little. How much, no one knows. There might be some licensing of milk. The Department knows that the hog-raiser has been penalized by the high processing taxes. When that is discussed, however, these members of the Committee on Agriculture say: "Yes, but hog prices are very high," and they have no reply to this answer: "Yes, but the farmers have very few hogs to sell."

More Costly Than War—In three years, 1934-35-36, we will be spending thirteen thousand dollars every minute of the day and night and out of that it is estimated seven thousand dollars will be added every minute to our public debt to be paid by the future generations. Every person will be paying about \$64.50 as compared with about \$42.16 in the previous twenty years which included the war. Quite a difference in spending, is it not?

February Imports—The report of the Tariff Commission for February, 1935, on imports for consumption for specified farm commodities by sources was given to me today by Robert O'Brien, Chairman of the Tariff Commission. It reveals that Uncle Sam imported into this county during February farm commodities as follows:
Corn, 1,825,742 bushels; rye 1,176,376 bushels; wheat, 150,040 bushels (wheat which was unfit for human consumption amounted to 905,247 bushels); barley, 133,154 bushels; oats, 2,118,349 bushels; flax, 1,996,637 bushels; hay 17,233 tons; potatoes, 2,459,171 lbs.; beef, 774,472 lbs.; pork, 152,630 lbs.

Tax assessments for Nebraska railroads will be about the same as last year, with the possible exception of the

State Insurance Director Moose has appealed to Senator Burke in Washington to use his influence on a bill which would make it unlawful to use the mails to solicit insurance or collect and transmit insurance premiums without complying with each state's insurance laws. Moose said that "companies soliciting insurance by mail and radio are causing more trouble in the insurance business than all of the 656 companies licensed in the state combined."

The state treasurer has been authorized to invest another \$200,000 of Nebraska money in U. S. bonds, bringing the total up to \$2,200,000.

The war on this depression is more costly than a real war.

Old Age Pensions—Congressman McGroarty filed a new Townsend Old Ager Pension Bill the other day. He said the first one was not workable and that the new one was all right. The case is that the entire House is in favor of some kind of federal old age pension plan and the entire House seems old-age-pension minded, and most of them feel they must do something about social insurance, which they believe is a humanitarian thing, but many of them feel that employees and employers may be against the unemployment compensation part of the bill because it calls for too many taxes on payrolls, which a lot of employers may not be able to pay, so there will be a bitter fight on this bill, which is H. R. 7260.

Processing Taxes—Some of the congressmen, discussing the George amendment in the big emergency relief appropriation bill, which has to do with processing taxes, declare now that there must have been some reason why it stayed in the bill—whether Mr. Wallace, Secretary of Agriculture wanted it to remain in the bill or not, nobody knows. Those of legal mind, however, declare that it is inoperative, but if it is inoperative, why was it allowed to remain in the bill? Fairly reliable information traced to the Chairman of the Committee on Agriculture indicates that the question of hog processing taxes is entirely up to Mr. Wallace; that he has in mind the cutting down of the amount of the hog-processing tax a little. How much, no one knows. There might be some licensing of milk. The Department knows that the hog-raiser has been penalized by the high processing taxes.
