He Took the Ouch Out of the Dentist's Office

This is Dr. Leroy L. Hartman, Columbia university professor of dentistry, discoverer of the new teeth desensitizer which makes the dentist's drill a painless instru-

ment. The substance, which it was said "will revolutionize the practice of dentistry," was discovered after 20 years of research by Doctor Hartman. He refused to profit on the discovery, and offered the formula to all dentists.

Come On and Fight, Says Pussy

Literally putting her head in the lion's mouth is this pussy, but she knows it's all right with her big pal. Kitten and dog, raised together, are inseparable, and even eat out of the same dish. Just like the baby of the family, the kitten does pretty much as she pleases with the dog, who tolerates her playful antics. They live in Detroit.

In the Land of the Wild Jackass

Here is a small herd of wild burros in Death Valley, the descendants of the little pack animals turned loose in by-gone years by prospectors overcome by thirst and starvation. Death Valley was taken into the national park service in 1933. Photograph by Union Pacific railroad.

Hell Freezes Over at Last

You've often heard the expression "when hell freezes over," but this time it's literally true. Buried under six inches of snow is the little settlement of Hell, Mich., a name given by one of the early settlers who was arrested for not paying his taxes on whisky he was distilling there. He christened the town Hell and Hell it has been ever since. The photograph shows a dam at Hell frozen over. Although the little river is not named, it presumably is the River Styx.

"Stuff a Cold and Starve Fever" Wrong, Says Doctor

I do not know who was responsible for the slogan, "Stuff a cold and starve a fever." Perhaps the same one who started, "Eat drink and be merry, for tomorrow we die." To follow the former would probably result in dying, though perhaps with little merriment. It is unfortunate that slogans have so strong a hold on people and so powerful an influence on conduct.

Don't stuff a cold or starve a fever! Eat not by slogan, but to meet the articular situation. In that way lies intelligent treatment. But don't try to treat a fever, or a bad cold either, without expert advice. Consult your family doctor and follow his directions.—Dr. Walter H. Eddy, director Good House-keeping Bureau.

The Man Who Knows

Whether the Remedy You are taking for Headaches, Neuralgia or Rheumatism Pains is SAFE is Your Doctor. Ask Him

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.
