STANDARD RED CROWN GIVES ONE-SECOND STARTING

...WITH THE HIGHEST POSSIBLE WINTER MILEAGE

Listen Sarge, that Red Crown got us here before the stick-up took place. The robber hasn't showed up yet... sure, we'll call you back when he gets here.

Hold on, Mr. Lichty. In depicting the fast start-up, fast warm-up and general speed of Standard Red Crown for winter, you're going too far.

Of course, a tankful of Red Crown goes far, also—for this brilliant new motor fuel gives the highest possible winter mileage.

What's more, it starts an engine in good condition, in one second, at zero.

Try this great winter gasoline!

GET SOME TODAY FROM YOUR STANDARD DEALER!

By the way... because Standard Red Crown does start an engine in a hurry and gives full steam ahead quickly, it is wise to use the correct winter grade of motor oil with it. Then you'll insure instant, full lubrication of all moving parts the second your engine starts turning. Standard's ISO-VIS "D" motor oil does a fine job.
