You Pay Less TO OWN IT TO RUN IT

1937 Ford V·8

• If you think that "all low-price cars cost about the same" - forget it! They don't.

Ford makes a car — a 60-horsepower economy Ford V-8 - that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

• Of course, first cost doesn't prove "low cost" - you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures on the open road - in a car provided by the nearest Ford dealer.

 When you've finished your personal check-up, ask yourself: "Do I want to save money the day I buy my car and every mile

I drive it?" "Do I want a safe, roomy, comfortable car of advanced design created from the finest materials to the highest precision standards?"

There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 5529 at Dearborn Factory.
Prices
Begin of 529 State and Federal taxes extra This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.

\$25 A MONTH, after usual dewn-payment, buys any Ford V-8 Car, from any Ford dealer, anywhere in the U. S.—through Authorized Ford Finance Plans of Universal Credit Co.
