LIVING UP TO MY AD
 Giving you tops in Mileage

I know the trouble. So many oil ads yell mileage, that you can't tell one way or another. I don't want my own ads to be in that class, so I'd like you to know all I'm staking, when I personally recommend Conoco Germ Processed oil to you. In my case, you see, I'm the owner of my business. And there's nothing makes repeat customers for me like my Germ Processed oil . . . or I ought to say, the long mileage it gives you. The patent Germ Process makes this oil get fastened real firm to the bearings and cylinders and other parts—as if they'd been built with an actual plating of oil that can't separate . . . can't thin out and burn right up. Neither is it going to run down every time you stop. Then you can't make any "dry starts" with Oil-Plating, and right there is where engineers say you will end a good half of all the wear you used to get in Summer. The less wear, the less oil your engine eats. You'll get on to this yourself, from your cool quiet Oil-Plated engine. And that's how I make another good friend for my Conoco Germ Processed oil.
