Light Vote Cast For Holt Co. Soil Conservation District Supervisors

The number of ballots cast at the polls last Saturday for election of supervisors for the newly organized Holt County Soil Conservation district was very light.
After petitions had been circulated to place the names of eight Holt County landowners on the ballot and absentee ballots were distributed at each town in the county to facilitate voting in all parts of the county.

The ballots cast were very close for some of the candidates and it will probably be necessary to wait until several mail votes are counted before announcing the results of the election of supervisors.

Following is the result of the otes cast at the polls and by absentee ballot in the county. The mail vote is not included.
