### Miracle of Today

Simply, in a voice devoid of emotion, William Furber, San Diego, Calif., describes a miracle of the 20th century. He had been blind for 30 years.

WHY not make a week-end project of putting together a couple of comfortable chairs with the special features shown here? You don't have to have a fancy workshop. The whole job may be done out in the yard or on the porch. Just three stock widths of

lumber are needed; all the cuts are straight and the pieces may be nailed or screwed together.

But the really important thing about this chair is that it is comfortable to sit in and good to look at. The removable back makes it easy to move around and to store for the winter. Even though it is made with all straight cuts of the saw, it is so designed that it has no awkward angles and no jack knife posture is necessary when sitting in it.

NOTE—Mrs. Spears has prepared a large sheet with working diagrams; complete list of materials; dimensions and step-by-step directions for cutting and assembling this chair. Ask for Design 269 and enclose 15 cents. Address:

### Rain Stones

A hailstone is a drop of rain that is carried up and down between currents of warm and cold air which alternately coat it with moisture and then freeze the coat, says Collier's.

Consequently, as these coats, or concentric layers, are visible when the stone is cut in two, the number of times it was carried up and down before falling can be determined.

### SNAPPY FACTS ABOUT RUBBER

Back in January, American troops recaptured from the Japs the first invaded rubber-producing land. They took possession of Saldor in New Guinea with its 300 acres of rubber trees. All Saldor rubber normally goes to Australia.

Informed rubber officials insist that when peace comes, our synthetic rubber plants will be just as vital to the security of the American people as they are during the war period. They say that the amount of post-war synthetic which will be made in this country after the war will depend upon the total world demand for rubber and upon the crude prices established by plantation operators.

### Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!
