## SNAPPY FACTS ABOUT RUBBER

About 153 million tons of agricultural products were moved from farm to market by motor vehicles in 1942, and even a greater amount is expected to be transported by highway this year. Shipments of this volume call for the use of a tremendous number of tires.

Only a small amount of rubber may reach us from the Amazon Valley, but herculean efforts are being made to get it out of the jungles, as is indicated by the report that Brazilian agencies have moved 20,000 workers into the rubber-producing country.
