If Prohibition Returns... NEBRASKA WILL LOSE MILLIONS OF DOLLARS IN TAXES ANNUALLY!

These would be made up by some other form of taxation.
 Nebraska's tax losses would be enormous under prohibition. For instance—for the 1942-43 fiscal year Nebraska collected \$2,216,173.26 in alcoholic beverage taxes which went into the State Assistance Fund for the aged, infirm, and dependent. Considering that the federal government matched this with a like amount, the net loss to the state would be almost 4 1/2 MILLION DOLLARS ANNUALLY. These taxes would have to be made up from some other tax source . . . increased property taxes . . . state income tax . . . service tax . . . sales tax . . . or some other form of tax. Do you want to assume this huge, new tax burden? No Nebraskan can conceivably wish to add to the present heavy tax load. You can avoid this extra taxation by defeating Prohibition at the polls November 7.
